## **INDEPENDENT AUDITOR'S REPORT**

To the Shareholders of TAV Havalimanları Holding A.Ş.

### **Report on the Audit of the Consolidated Financial Statements**

#### **Opinion**

We have audited the consolidated financial statements of TAV Havalimanları Holding A.Ş. and its subsidiaries (the Group), which comprise the consolidated statement of financial position as at December 31, 2017, and the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at December 31, 2017, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs).

#### **Basis for Opinion**

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' *Code of Ethics for Professional Accountants* (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying financial statements.

Key audit matter	How our audit addressed the key audit matter
<p><b><i>Cessation of operations of TAV Istanbul Terminal İşletmeciliği A.Ş. (“TAV İstanbul”)</i></b></p> <p>As discussed in Note 1, in May 2013, a tender has been made for the construction of a third airport in Istanbul. A joint venture consortium won the tender for a 25-year lease starting from 2017. The operations of TAV İstanbul will be terminated, before the official termination end date of its concession agreement which is January 3, 2021, when the new airport will commence its operations. The Group did not change the useful lives of related property, plant and equipment, rights and prepaid rent and development expense (or provided reserve for impairment thereof) carried at an amount of EUR 167,160 in the consolidated financial statements, because of the uncertainty about the exact cessation date of operations cease date. On the other hand, the General Directorate of State Airports Authority (“DHMI”) has confirmed through its letter dated January 22, 2013 that, losses incurred by TAV İstanbul due to early termination of the concession agreement will be covered by DHMI. Based on this confirmation by DHMI, the Group expects that in case the assets will not be recovered through use because of early cessation, they will be covered through compensation of losses by DHMI. This is a significant matter in determining the carrying amount of property, plant and equipment, rights and prepaid rent and development expense.</p>	<p>During our audit, we have obtained and reviewed the letter sent by DHMI that confirmed compensation of TAV İstanbul’s losses. We have reviewed the recoverability of the assets of TAV İstanbul based on estimated compensation alternatives.</p>
<p><b><i>Recoverability of airport operation rights in TAV Tunisie SA</i></b></p> <p>As discussed in Note 26, due to terrorist attacks in Tunisia, the operations of TAV Tunisie SA (“TAV Tunisie” – a consolidated subsidiary) have diminished significantly. The consolidated statement of financial position as of December 31, 2017 includes intangible assets of EUR 410,595 that comprises related operation rights representing 19% of total consolidated non-current assets. Management’s assessment of the recoverable amount of Airport Operation Rights in TAV Tunisie requires estimation and judgement, which are disclosed in note 2.d, around assumptions used. Changes to assumptions could lead to material changes in the estimated recoverable amount, impacting potential impairment charges.</p>	<p>Component team audited the projections of the Company and in addition our internal valuation specialists reviewed their work to evaluate the methods (recoverable amount determined based on value in use calculations) and assumptions used by management. We examined the business plans approved and assumptions used by management. We tested the reasonableness of the discount rates used. We validated the main assumptions against external data such as risk free rates and beta. We tested the mathematical accuracy of the models used by management. We also examined the related disclosures in the financial statements.</p>
<p><b><i>Covenants compliance of TAV Tunisie SA</i></b></p> <p>Financing and covenants compliance is a key audit matter also for TAV Tunisie SA’s (“TAV Tunisie”) since its credit facility is subject to several covenants. In the course of 2016 and 2017, TAV Tunisie was in breach of its financial covenant as a result of significant decrease in its operations due to terrorist attacks, as discussed in Note 26. Due to breach of financial covenants, non-current loan liabilities of TAV Tunisie were reclassified to current loan liabilities in the consolidated financial statements.</p>	<p>Component team audited the debt covenant calculation and compliance of the accounting treatment with IAS 1 Presentation of Financial Statements and we reviewed their work.</p>

## **Other information Included in The Group's 2017 Annual Report**

Management is responsible for the other information. The other information comprises the information included in the annual report. The annual report is expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

## **Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements**

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRSs, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

## **Auditor's Responsibilities for the Audit of the Consolidated Financial Statements**

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### Description of Operations

The Group and its joint ventures' core businesses are related to the construction of terminal buildings, management and operation of terminals or airports. TAV Esenboğa entered into Build-Operate-Transfer ("BOT") agreements with Devlet Hava Meydanları İşletmesi Genel Müdürlüğü (General Directorate of State Airports Authority) ("DHMI"), TAV Tbilisi with JSC Tbilisi International Airport ("JSC"), TAV Batumi with Georgian Ministry of Economic Development ("GMED"), TAV Tunisia with Tunisian Airport Authority (Office De L'Aviation Civil Et Des Aeroports) ("OACA"), Ministry of Transportation ("MOT"), TAV Macedonia with Macedonian Ministry of Transportation and Communication ("MOTC"). Tibah Development entered into Build-Transfer-Operate ("BTO") agreement with General Authority of Civil Aviation ("GACA"). TAV Ege, TAV Milas Bodrum and TAV Gazipaşa entered into concession agreement with DHMI and Medunarodna Zracna Luka Zagreb D.D. ("MZLZ") with Ministry of Maritime Affairs, Transport and Infrastructure of The Republic of Croatia ("MMTI"). Under these agreements, the Group agrees to build or renovate or manage an airport or terminal within a specified period of time and in exchange receives the right to operate the airport and terminal for a pre-established period of time. At the end of the contracts, the Group will transfer the ownership of the terminal buildings or airports back to the related public authority, DHMI, JSC, GMED, OACA, MOT, MOTC, GACA and MMTI accordingly. Group also signs separate contracts related with the airport operations.

#### BOT, BTO and Concession Agreements

The airport terminals operated by the Group and its joint ventures are as follows:

#### Istanbul Atatürk International Airport

A BOT agreement was executed between TAV and DHMI regulating the reconstruction, investment and operations of Atatürk International Airport Terminal ("AIAT") in 1998. TAV was required to complete the construction by August 2000 and then had the right to operate the facilities of AIAT for 3 years, 8 months and 20 days. TAV completed the reconstruction of AIAT in January 2000 and started the operation seven months earlier, after completion of a significant portion of the construction. Construction of the remaining parts of the project was finalized in August 2000. DHMI and the Undersecretariat of Treasury gave their acceptance of the project in August 2000 when the investment period was formally completed.

An addendum to the agreement was made in June 2000. Under the terms of the addendum, TAV committed to enlarge AIAT by 30% by year 2004. In return for extending AIAT, the operation period of TAV was extended by 13 months 12 days (approximately 66 months in total) through June 2005. The contract expired in June 2005 and TAV transferred Atatürk Domestic Airport Terminal ("ADAT") and AIAT to DHMI. On 3 June 2005, TAV İstanbul signed a rent agreement to operate AIAT and ADAT for 15.5 years until year 2021.

An addendum has been signed on 4 November 2008, namely Atatürk Airport Development Project, covering installation of new passenger boarding bridges and construction of new commercial areas. Through this addendum TAV has undertaken approximately EUR 36,000 of investment in exchange of the operation right of newly created commercial areas.

#### BOT, BTO and Concession Agreements (continued)

##### İstanbul Atatürk International Airport (continued)

A tender was held on 3 May 2013 for construction of a new airport in İstanbul. It has been announced that the winning bid for the tender as per the tender specifications of İstanbul's New Airport Project to be undertaken by BOT model within the framework of the procedures and principles defined by DHMİ as per the law no. 3996 and cabinet decree no. 2011/1807 was offered by a venture other than the Company. TAV Holding and TAV İstanbul received a formal letter issued by DHMİ dated 22 January 2013, stating that DHMİ will fully reimburse the Company for all loss of profit over the remaining period of its existing rent period that may be incurred in case that another airport is opened for operation in İstanbul before the end of the rent period of TAV İstanbul. In addition, it is stated that independent expert companies will be consulted for the computation of the total reimbursement amount. Accordingly the management continues to use the concession contract period end date of 2021 as the amortisation date of prepaid rent and leasehold improvements, considering the uncertainty with respect to exact closure date of Atatürk Airport and that the carrying values of assets as of closure date, in case earlier than the end of concession period, are recoverable.

##### Ankara Esenboğa International Airport

A BOT agreement was executed between TAV Esenboğa and DHMİ on 18 August 2004 for regulating the reconstruction, investment and operations of the Ankara Esenboğa International Airport (international and domestic terminals) for the period until May 2023. According to the Agreement, TAV Esenboğa was required to complete the construction within 36 months after the agreement date and would then have the right to operate the facilities of the Ankara Esenboğa International Airport Terminal for a period of 15 years and 8 months. TAV Esenboğa is providing terminal, car park and passenger boarding services since the beginning of operations on 16 October 2006.

##### İzmir Adnan Menderes International Airport

A BOT agreement was executed between TAV İzmir Terminal İşletmeciliği A.Ş. ("TAV İzmir") and DHMİ on 20 May 2005 for regulating the reconstruction, investment and operations of İzmir Adnan Menderes Airport International Terminal. According to the Agreement, TAV İzmir was required to complete the construction within 24 months after the agreement date and would then have the right to operate the facilities of İzmir Adnan Menderes Airport International Terminal for a period of 6 years, 7 months and 29 days. An addendum to the Agreement was signed on 21 August 2006. Under the terms of the addendum, in return for additional works, the operation period of TAV İzmir was extended by 11 months 17 days through January 2015. TAV İzmir has been providing terminal, car park and passenger boarding services since the beginning of operations on 13 September 2006.

A concession agreement was executed between TAV Ege and DHMİ with an effective date of 16 December 2011 for taking-over the operation of the domestic terminal of İzmir Adnan Menderes Airport until 31 December 2032 and renting the international terminal on January 2015 and operating it until 31 December 2032. TAV Ege is obliged to construct a new domestic terminal with its ancillary buildings and to pay EUR 610,000 plus VAT (18%) to DHMİ in yearly equal installments, of which EUR 30,500 plus VAT has been prepaid at the beginning of the concession period under the terms of the concession agreement.

According to the concession agreement dated 16 December 2011, TAV Ege started renting and operating İzmir Adnan Menderes Airport International Terminal at 10 January 2015. As at 23 November 2015 TAV İzmir was closed as a legal entity and all assets and liabilities were transferred to TAV Ege.

##### Milas Bodrum Airport

On 21 March 2014, the Company has been awarded the tender held by DHMİ for the operation rights of the Milas Bodrum Airport whose scope includes operation of existing Domestic and International Terminals with ancillary facilities, until 31 December 2035. While Domestic Terminal is handed over within signing of the Concession Agreement, operation of International Terminal commenced on 22 October 2015 following the expiry of the existing contract. The total concession amount is EUR 717,000 plus VAT.

#### BOT, BTO and Concession Agreements (continued)

##### Tbilisi International Airport

A BOT agreement was executed between TAV Tbilisi and JSC on 6 September 2005 for the operations of Tbilisi International Airport (both international, domestic terminals and parking-apron-taxi ways). The BOT agreement undertakes the design, engineering, financing, construction, testing, commissioning and maintenance of the new terminal for Tbilisi International Airport, for an initially agreed term of 10 years and 6 months from the commencement date of the new terminal operations. Subsequently, this period was extended by another 9.5 years until February 2027, in exchange for an obligation by TAV Tbilisi to invest an additional amount for the construction of the terminal (including construction of additional runways, extension of apron etc.) for Batumi Airport, TAV Tbilisi is providing a wide range of airport activities such as terminal, car-park, cargo, ground handling, aircraft parking, apron and runway services – excluding air traffic control – in New Tbilisi International Airport since the beginning of operations on 8 February 2007.

##### Batumi International Airport

On 9 August 2007, TAV Batumi Operations signed an agreement with the Georgian Ministry of Economic Development to transfer the management rights of all shares of the Batumi Airport LLC to TAV Batumi for 20 years. According to such share management agreement, all airport operations (excluding only the air traffic control and aviation security services) of the Batumi International Airport will be carried out by TAV Batumi until August 2027. Georgian Government is responsible for providing air traffic control and security services.

##### Tunisia Monastir and Enfidha International Airports

A BOT agreement was executed between TAV Tunisia and OACA on 18 May 2007, for the operation of existing Monastir Habib Bourguiba Airport and new Enfidha Airport (International, domestic terminals and parking-apron-taxi-ways). Through the BOT agreement TAV Tunisia undertakes the operation of the existing Monastir Habib Bourguiba Airport and design, engineering, financing, construction, testing, commissioning and maintenance of the new Enfidha Airport. The operations of Monastir Habib Bourguiba Airport and Enfidha Airport were undertaken in January 2008 and December 2009, respectively. The concession periods of both airports will end in May 2047. The operations of the Monastir and Enfidha Airports cover a wide range of airport activities such as terminal, car-park, cargo, ground handling, aircraft parking, apron and runway services excluding air traffic control services.

##### Alanya-Gazipaşa Airport

Relating to the transfer of the operational rights of Alanya-Gazipaşa Airport via a lease, the concession agreement between TAV Gazipaşa and DHMİ was signed on 4 January 2008. The operation period of Alanya-Gazipaşa Airport, which currently has 1,500,000 annual passenger capacity, is 25 years until May 2034, and the operation of the airport covers activities within airside and landside facilities and area of runway, apron and taxiway. TAV Gazipaşa shall make an annual rent payment of USD 50 plus VAT as a fixed amount, until the end of the operation period; as well as a share of 65% of the net profit for the period to DHMİ.

##### Macedonia Skopje, Ohrid and Shtip Airports

On 24 September 2008, the 20-year BOT agreement for the construction and operation of Alexander the Great Airport in Skopje, renovation and operation of the St. Paul the Apostle Airport in Ohrid, and the construction and optional operation of the New Cargo Airport in Shtip airports was signed between TAV Macedonia and MOTC. The operation of the airports shall cover all airport activities with the exception of air traffic control, and modernisation activities are contemplated to include the technical infrastructure. The effective date of the concession contract for Alexander the Great Airport and St. Paul the Apostle Airport is 1 March 2010 and final date of Concession Agreement is 1 March 2030. The effective date for initiating construction of New Cargo Airport in Shtip will be decided after meteorological and technical measurements which will last for at least 10 years after the effective date. The renovation of the St. Paul the Apostle Airport in Ohrid and the construction of Alexander the Great Airport in Skopje were completed and the airports started their operations in March 2011 and September 2011, respectively.

##### Medinah International Airport

A BTO agreement was executed between Tibah Development and GACA on 29 October 2011, for the operation and development of existing Medinah International Airport. Through the BTO agreement Tibah Development undertook the operation of the existing Medinah International Airport as well as the design, engineering, financing, construction, testing, commissioning and maintenance of a new passenger Terminal and the required additional infrastructure. TAV Holding owns 33.33% of Tibah Development. The operations were undertaken in June 2012. The concession period will end in June 2037. The operations of the Medinah International Airport cover a wide range of airport activities such as terminal, car-park, cargo, ground handling, aircraft parking, apron and runway services and slot allocation. Tibah Development has subcontracted the operation of Medinah International Airport to Tibah Operation, of which 51% belongs to TAV Holding. The construction of Medinah International Airport were completed and the airport started its operations in April 2015.

##### Zagreb International Airport

A Concession Agreement was executed between ZAIC-A limited and Republic of Croatia on 11 April 2012 for the financing, design and construction and operation of a new passenger terminal and related infrastructure at Zagreb Airport. TAV Holding signed a letter of intent to become 15% shareholder in the "Consortium" for the concession of Zagreb International Airport. Aviator Netherland B.V. has been established as a 15% shareholder of ZAIC-A. TAV Holding owns 100% of Aviator Netherlands B.V. Handover Date occurred in 6 December 2013 and the consortium that TAV Holding is a 15% partner took over the operations and construction site. The concession period will end in April 2042.

#### *Operations Contracts*

BOT and BTO operations and management contracts include the following:

Terminal and airport services – The Group has the right to operate the terminals and airports as mentioned in the preceding paragraphs. This includes passenger, ramp and check-in counter services and services for parking-apron-taxi ways (for airport operations). A fee is charged to each airline based on the number of passengers that utilise the airport, based on the number of aircrafts that utilise ramps and runways and based on the number of check-in counters utilised by the airlines.

Duty free goods – The Group has the right to manage duty free operations within the terminals which the Group operates. Duty free shopping is available to both arriving and departing passengers. The duty free shops are subcontracted either to Group's joint ventures or to other companies in exchange for a commission based on sales.

Catering and airport hotel services – The Group has the right to manage all food and beverage operations within the terminals both for the passengers and the terminal personnel. The Group subcontracts certain food and beverage operations in exchange for a commission based on sales.

Area allocation services – As a lessor, the Group leases office space in the airport terminal including the offices leased to the airlines for ticket office and banks.

### 2. BASIS OF PREPARATION

#### a) Statement of compliance

The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRSs”).

The consolidated financial statements were authorized for issue by the Board of Directors on 21 February 2018. The power to change the consolidated financial statements after the issuing of the consolidated financial statements is held by the General Assembly.

#### b) Basis of measurement

The consolidated financial statements have been prepared on the historical cost basis except for derivative financial instruments which are measured at fair value.

The methods used to measure fair values are discussed further in Note 4.

#### c) Functional and presentation currency

TAV Holding and its subsidiaries operating in Turkey maintain their books of account and prepare their statutory financial statements in Turkish Lira (“TRL”) in accordance with the accounting principles as promulgated by the Turkish Commercial Code and tax legislation.

Functional currency of most of the Group companies operating in Turkey and other countries are determined to be Euro, different from their country’s currency according to IAS 21. Accordingly functional currency of TAV Holding as a parent company has been determined as Euro.

The accompanying consolidated financial statements are presented in EUR, which is the functional currency of TAV Group.

#### d) Use of estimates and judgements

The preparation of the consolidated financial statements in conformity with IFRSs requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

Information about critical judgments in applying accounting policies that have the most significant effect on the amounts recognised in the consolidated financial statements is included in the following notes:

Note 3(e) – mark-up applied to construction cost incurred under IFRIC 12 “Service Concession Arrangements”.

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the next financial period are included in the following notes:

Note 3, 14 and 15 – useful lives of property and equipment and intangible assets

Note 15 – key assumptions used in discounted cash flow projections

Note 18 – utilisation of tax losses and tax incentives

Note 27 – measurement of reserve for employee severance indemnity

### 2. BASIS OF PREPARATION (continued)

#### d) Use of estimates and judgements (continued)

A valuation for the fair values of TAV Tunisia as a separate cash-generating unit (“CGU”) was performed by the Company management. The income approach (discounted cash flow method) was used to determine the fair value of TAV Tunisia.

A business plan with a duration until end of concession term (May 2047) prepared by the management of TAV Tunisia and it was used in the valuation of company. The growth in business plan of TAV Tunisia is driven by passenger and aircraft related projections as well as growth in commercial products related demand in the airports. The Company also assumed that current bank loans shall be restructured in second half of 2019 which is the end of moratorium period. The discount rates used in discounted cash flows are the weighted average cost of capitals (“WACC”) of the company, with average post-tax discount rate of 9.6% during the projection period (between 2018 and 2047). Since TAV Tunisia has a limited life, terminal growth rate is not used in the valuation.

As a result of the impairment testing performed on CGU basis, no impairment loss was recognised for TAV Tunisia.

A valuation for the fair values of TAV Milas Bodrum as a separate CGU was performed by the Company management. The income approach (discounted cash flow method) was used to determine the fair value of TAV Milas Bodrum.

A business plan with a duration until end of concession term (December 2035) prepared by the management of TAV Milas Bodrum and it was used in the valuation of company. The growth in business plan of TAV Milas Bodrum is driven by passenger and aircraft related projections as well as growth in commercial products related demand in the airports. The discount rates used in discounted cash flows are the WACC of the company, with average post-tax discount rate of 9.0% during the projection period (between 2018 and 2035). Since TAV Milas Bodrum has a limited life, terminal growth rate is not used in the valuation.

As a result of the impairment testing performed on CGU basis, EUR 25,000 impairment loss was recognised for TAV Milas Bodrum (Note 16).

#### e) The reclassification to prior year financial statements

The Group has reassessed the presentation of revenue. Accordingly other operating income amounting to EUR 69,847 is presented as operating revenue in consolidated statement of comprehensive income for the year ended 31 December 2016.

The Group has reassessed the presentation of employee benefit obligation financial expense. Accordingly financial expense for employee benefit obligation amounting to EUR 2,011 is presented in finance cost in consolidated statement of comprehensive income for the year ended 31 December 2016.

The Group has reassessed the presentation of unwinding of discount on guaranteed passenger fee receivable from DHMİ. Accordingly discount income amounting to EUR 11,800 is presented in operating revenue in consolidated statement of comprehensive income for the year ended 31 December 2016.

### 3. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies set out below have been applied consistently to all periods presented in these consolidated financial statements, and have been applied consistently by Group entities and their joint ventures.

#### a) Basis of consolidation

Each entity is consolidated based on the following methods:

- TAV İstanbul, TAV Esenboğa, TAV Ege, TAV Milas Bodrum, TAV Macedonia, TAV Gazipaşa, TAV Latvia, HAVAŞ, HAVAŞ Europe, HAVAŞ Europe Helsinki, HAVAŞ Germany, HYT İzmir, HYT Muğla, HYT Samsun, BTA, BTA Georgia, BTA Tunisia, BTA Macedonia, Cakes & Bakes, BTA Tedarik, BTA Danışmanlık, BTA Latvia, TAV İşletme, TAV İşletme Germany, TAV İşletme Latvia, TAV İşletme Kenya, TAV İşletme America, TAV İşletme Washington, TAV Havacılık, TAV Bilişim, TAV IT Saudi, TAV Güvenlik, TAV Akademi, Aviator Netherlands, TAV Uluslararası Yatırım, BTA Uluslararası Yiyecek, BTA Erus and BTA MZLZ are fully consolidated without non-controlling interest's ownership.
- TAV Tunisia, TAV Tbilisi, TAV Batumi, Batumi Airport LLC, TAV İşletme Georgia, TAV İşletme Tunisia, TAV İşletme Tunisia Plus, TAV İşletme Macedonia, TAV Aviation Minds, BTU Lokum and BTU Gıda are fully consolidated with the non-controlling interest's ownership reflected as a non-controlling interest. The equity of Batumi Airport LLC is fully reflected as non-controlling interest due to the transfer of right on shares to JSC at the end of share management agreement period.
- ATU, ATU Georgia, ATU Tunisia, ATU Macedonia, ATU Latvia, ATU Tunisia Duty Free, ATU Medinah, ATU Americas, ATU Mağazacılık, ATU Uluslararası Mağazacılık, ATU Holdings, TAV Gözen, TGS, Saudi HAVAŞ, BTA Denizyolları, BTA Medinah, BS Kahve, Tibah Development, Tibah Operation, TAV İşletme Chile, TAV İşletme Saudi, ZAIC-A, MZLZ, MZLZ Operation, AMS and Medinah Hotel are consolidated using the equity method.

#### i) Business combinations:

Business combinations are accounted for using the acquisition method as at the acquisition date, which is the date on which control is transferred to the Group. Control is the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing control, the Group takes into consideration potential voting rights that currently are exercisable. The Group measures goodwill at the acquisition date as:

- the fair value of the consideration transferred; plus
- the recognised amount of any non-controlling interests in the acquiree; plus
- if the business combination is achieved in stages, the fair value of the pre-existing equity interest in the acquiree; less
- the net recognised amount (generally fair value) of the identifiable assets acquired and liabilities assumed.

When the excess is negative, a bargain purchase gain is recognised immediately in profit or loss.

The consideration transferred does not include amounts related to the settlement of pre-existing relationships. Such amounts generally are recognised in profit or loss.

Transactions costs, other than those associated with the issue of debt or equity securities, that the Group incurs in connection with a business combination are expensed as incurred.

#### ii) Subsidiaries:

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

(Amounts expressed in thousands of Euro unless otherwise stated. Currencies other than Euro also expressed in thousands unless otherwise stated.)

### 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

#### a) Basis of consolidation (continued)

##### iii) Non-controlling interests:

For each business combination, the Group elects to measure any non-controlling interests in the acquiree either:

- at fair value; or
- at their proportionate share of the acquiree's identifiable net assets, which are generally at fair value.

Changes in the Group's interest in a subsidiary that do not result in a loss of control are accounted for as transactions with owners in their capacity as owners. Adjustments to non-controlling interests are based on a proportionate amount of the net assets of the subsidiary. No adjustments are made to goodwill and no gain or loss is recognised in profit or loss.

In 2017, TAV Holding acquired 33.33% of shares of BTA in return for EUR 9,500. After the purchase, the share of TAV Holding in BTA increased from 66.66% to 100.00%.

##### iv) Acquisitions from entities under common control:

Business combinations arising from transfers of interests in entities that are under the control of the shareholder that controls the Group are accounted for as if the acquisition had occurred at the beginning of the earliest comparative period presented or, if later, at the date that common control was established; for this purpose comparatives are restated. The assets and liabilities acquired are recognised at the carrying amounts recognised previously in the controlling shareholder's consolidated financial statements. The components of equity of the acquired entities are added to the same components within the Group equity and any gain / loss arising is recognised directly in equity.

##### v) Loss of control:

Upon the loss of control, the Group derecognises the assets and liabilities of the subsidiary, any non-controlling interests and the other components of equity related to the subsidiary. Any surplus or deficit arising on the loss of control is recognised in profit or loss. If the Group retains any interest in the previous subsidiary, then such interest is measured at fair value at the date that control is lost. Subsequently it is accounted for as an equity-accounted investee or as an available-for-sale financial asset depending on the level of influence retained.

##### vi) Joint arrangements and associates:

Joint arrangements are arrangements of which the Group has joint control, established by contracts requiring unanimous consent for decisions about the activities that significantly affect the arrangements' returns. They are classified and accounted for as follows:

- Joint operation – when the Group has rights to the assets, and obligations for the liabilities, relating to an arrangement, it accounts for each of its assets, liabilities and transactions, including its share of those held or incurred jointly, in relation to the joint operation.
- Joint venture – when the Group has rights only to the net assets of the arrangements, it accounts for its interest using the equity method.

(Amounts expressed in thousands of Euro unless otherwise stated. Currencies other than Euro also expressed in thousands unless otherwise stated.)

### 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

#### a) Basis of consolidation (continued)

##### vi) Joint arrangements and associates(continued):

###### *Associates*

Joint ventures and associates are accounted for equity method in the consolidated financial statements. Joint ventures and associates initially recognised at fair value. After initial recognition, Group's share of the profit or loss of the investee, is recorded to financial statements by increasing or decreasing the net book value. Group's share of the profit or loss and other comprehensive income of equity-accounted investees, after adjustments to align the accounting policies with those of the Group, from the date that significant influence commences until the date that significant influence ceases.

When the Group's share of losses exceeds its interest in an equity-accounted investee, the carrying amount of the investment, including any long-term interests that form part thereof, is reduced to zero, and the recognition of further losses is discontinued except to the extent that the Group has an obligation or has made payments on behalf of the investee.

##### vii) Transactions eliminated on consolidation:

Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

#### b) Foreign currency

##### i) Foreign currency transactions:

Transactions in foreign currencies are translated to the respective functional currencies of Group entities at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated to the functional currency at the exchange rate at that date. The foreign currency gain or loss on monetary items is the difference between amortised cost in the functional currency at the beginning of the period, adjusted for effective interest and payments during the period, and the amortised cost in foreign currency translated at the exchange rate at the end of the period.

Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated to the functional currency at the exchange rate at the date that the fair value was determined. Non-monetary items in a foreign currency that are measured based on historical cost are translated using the exchange rate at the date of the transaction. Foreign currency differences arising on retranslation are recognised in profit or loss, except for differences arising on qualifying cash flow hedges to the extent the hedge is effective, which are recognised in other comprehensive income.

*(Amounts expressed in thousands of Euro unless otherwise stated. Currencies other than Euro also expressed in thousands unless otherwise stated.)*

### 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

#### b) Foreign currency (continued)

##### ii) Foreign operations:

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on acquisition, are translated to Euro at exchange rates at the reporting date. The income and expenses of foreign operations are translated to Euro at monthly average exchange rates.

Foreign currency differences are recognised in other comprehensive income, and presented in the foreign currency translation reserve (translation reserve) in equity. However, if the foreign operation is a non-wholly-owned subsidiary, then the relevant proportionate share of the translation difference is allocated to the non-controlling interests. When a foreign operation is disposed of such that control, significant influence or joint control is lost, the cumulative amount in the translation reserve related to that foreign operation is reclassified to profit or loss as part of the gain or loss on disposal. When the Group disposes of only part of its interest in a subsidiary that includes a foreign operation while retaining control, the relevant proportion of the cumulative amount is reattributed to non-controlling interests. When the Group disposes of only part of its investment in an associate or joint venture that includes a foreign operation while retaining significant influence or joint control, the relevant proportion of the cumulative amount is reclassified to profit or loss.

The Group entities and their joint ventures use either EUR, TRY, USD, TND, MKD, GEL, HRK, SAR, CLP and KES as functional currencies since these currencies are used to a significant extent in, or have a significant impact on, the operations of the related Group entities or their joint ventures and reflect the economic substance of the underlying events and circumstances relevant to these entities. All currencies other than the currency selected for measuring items in the financial statements are treated as foreign currencies. Accordingly, transactions and balances not already measured in the functional currency have been re-measured to the related functional currencies. The Group uses EUR as the reporting currency. Assets and liabilities are translated by using year end foreign exchange rates. Income and expenses which are recorded to financial statements during the period are translated by using yearly average rates. Share capital and legal reserves are classified to financial statements by using their face value in the statutory financial statements. "Foreign currency translation differences" resulted by their translations are classified in the total items that will not be reclassified to profit or loss under equity.

The financial statements of subsidiaries that report in the currency of an economy formerly accepted as hyperinflationary (Turkey) are restated in terms of the measuring unit current at the reporting dates until 31 December 2005 before they are translated into EUR as the reporting currency. Turkey came off highly inflationary status for the period beginning after 15 December 2005, therefore restatement for IAS 29 ("Financial Reporting in Hyperinflationary Economies") has not been applied since 1 January 2006.

##### ii) Foreign operations(continued):

The financial statements of subsidiaries, namely BTA, TAV İşletme and TAV Güvenlik, which have the TRL as their functional currency, were restated to compensate for the effect of changes in the general purchasing power of the TRL until 31 December 2005, in accordance with IAS 29 as TRL was the currency of a hyperinflationary economy. Financial statements of such subsidiaries are then translated into Euro, the main reporting currency of the Group, by the exchange rate ruling at reporting date.

The foreign currency exchange rates as of the related periods are as follows:

#### c) Financial instruments

##### i) Non-derivative financial assets:

The Group initially recognises loans, receivables and deposits on the date that they are originated. All other financial assets (including assets designated at fair value through profit or loss) are recognised initially on the trade date at which the Group becomes a party to the contractual provisions of the instrument.

The Group derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred. Any interest in transferred financial assets that is created or retained by the Group is recognised as a separate asset or liability.

Financial assets and liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Group has a legal right to offset the amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

Non-derivative financial assets of the Group comprise loans and receivables.

##### *Loans and receivables*

Loans and receivables are financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are recognised initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition loans and receivables are measured at amortised cost using the effective interest method, less any impairment losses (see Note 3(h)(i)).

Loans and receivables comprise cash and cash equivalents, restricted bank balances, trade receivables, due from related parties and guaranteed passenger fee receivable from DHMİ (Concession receivables) (see Note 21).

### 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

#### c) Financial instruments (continued)

##### i) Non-derivative financial assets (continued):

###### *Cash and cash equivalents*

Cash and cash equivalents comprise cash balances and call deposits with original maturities of three months or less from the acquisition date that are subject to an insignificant risk of changes in their fair value, and are used by the Group management of its short-term commitments.

The Group's use of Project Accounts Reserve Accounts or Funding Accounts is based on certain conditions as defined in respective loan agreements. Therefore, bank balances included in these accounts are presented as restricted bank balances in the consolidated statement of financial position.

###### *Service concession arrangements*

The Group recognises a financial asset arising from a service concession arrangement when it has an unconditional contractual right to receive cash or another financial asset from or at the direction of the grantor for the construction or upgrade services provided. Such financial assets are measured at fair value upon initial recognition. Subsequent to initial recognition, the financial assets are measured at amortised cost.

If the Group is paid for the construction services partly by a financial asset and partly by an intangible asset, then each component of the consideration is accounted for separately and is recognised initially at the fair value of the consideration (see also accounting policy note on intangible assets below).

##### ii) Non-derivative financial liabilities:

The Group initially recognises debt securities issued and subordinated liabilities on the date that they are originated. All other financial liabilities are recognised initially on the trade date at which the Group becomes a party to the contractual provisions of the instrument. The Group derecognises a financial liability when its contractual obligations are discharged, cancelled or expired.

The Group classifies non-derivative financial liabilities into the other financial liabilities category. Such financial liabilities are recognised initially at fair value less any directly attributable transaction costs. Subsequent to initial recognition, these financial liabilities are measured at amortised cost using the effective interest method.

The Group has the following other financial liabilities: loans and borrowings, bank overdrafts, trade payables and due to related parties.

Bank overdrafts that are repayable on demand and form an integral part of the Group's cash management are included as a negative component of cash and cash equivalents for the purpose of the statement of cash flows.

When measuring the fair value of a liability, the Company takes into account the effect of its own credit risk and the effect of other factors that will probably affect the settlement of the liability.

##### iii) Share capital:

Ordinary shares are classified as equity.

### 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

#### c) Financial instruments (continued)

##### iv) Derivative financial instruments, including hedge accounting:

The Group holds derivative financial instruments to hedge its foreign currency and interest rate risk exposures.

On initial designation of the derivative as the hedging instrument, the Group formally documents the relationship between the hedging instrument(s) and hedged item(s), including the risk management objectives and strategy in undertaking the hedge transaction and the hedged risk, together with the methods that will be used to assess the effectiveness of the hedging relationship. The Group makes an assessment, both at the inception of the hedge relationship as well as on an ongoing basis, whether the hedging instruments are expected to be “highly effective” in offsetting the changes in the fair value and cash flows of the respective hedged items attributable to the hedged risk, and whether the actual results of each hedge are within a range of 80-125 percent. For a cash flow hedge of a forecast transaction, the transaction should be highly probable to occur and should present an exposure to variations in cash flows that could ultimately affect reported profit or loss.

Derivatives are recognised initially at fair value; any attributable transaction costs are recognised in profit or loss when incurred. Subsequent to initial recognition, derivatives are measured at fair value, and changes therein are accounted for as described below.

##### *Cash flow hedges*

When a derivative is designated as the hedging instrument in a hedge of the variability in cash flows attributable to a particular risk associated with a recognised asset or liability or a highly probable forecast transaction that could affect profit or loss, the effective portion of changes in the fair value of the derivative is recognised in other comprehensive income and presented in the hedging reserve in equity. The amount recognised in other comprehensive income is removed and included in profit or loss in the same period as the hedged cash flows affect profit or loss under the same line item in the statement of comprehensive income as the hedged item. Any ineffective portion of changes in the fair value of the derivative is recognised immediately in profit or loss.

In case of financial asset or financial liability is recognized in the financial statements as a result of forecast hedge transaction, Gain or losses accounted under other comprehensive income will be reclassified to income and loss components which will be excluded from equity for the period or periods of which cash flows subject to hedging (e.g. period which interest income or expense accounted)

In other cases, when the hedged item is not a non-financial asset, the amount accumulated in equity is reclassified to profit or loss in the same period that the hedged item affects profit or loss. If the hedging instrument no longer meets the criteria for hedge accounting, expires or is sold, terminated or exercised, or the designation is revoked, then hedge accounting is discontinued prospectively. If the forecast transaction is no longer expected to occur, then the balance in equity is reclassified in profit or loss.

#### d) Property and equipment

##### i) Recognition and measurement:

Items of property and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses.

Cost includes expenditure that is directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labour, any other costs directly attributable to bringing the asset to a working condition for its intended use, and the costs of dismantling and removing the items and restoring the site on which they are located and capitalised borrowing costs. Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

### 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

#### d) Property and equipment (continued)

##### i) Recognition and measurement (continued):

When parts of an item of property and equipment have different useful lives, they are accounted for as separate items (major components) of property and equipment.

Gains and losses on disposal of an item of property and equipment are calculated as the difference between the net proceeds from disposal and the carrying amount of the item and are recognised net within “other operating income / (expense)” in profit or loss.

##### ii) Subsequent costs:

Subsequent expenditure is capitalised only when it is probable that the future economic benefits associated with the expenditure will flow to the Group. Ongoing repairs and maintenance is expensed as incurred.

##### iii) Depreciation:

Items of property, plant and equipment are depreciated from the date that they are available for use, or in respect of self-constructed assets, from the date that the asset is completed and ready for use.

Depreciation is calculated to write off the cost of items of property, plant and equipment less their estimated residual values using the straight-line basis over their estimated useful lives. Depreciation is generally recognised in profit or loss, unless the amount is included in the carrying amount of another asset. Leased assets are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the Group will obtain ownership by the end of the lease term. Land is not depreciated.

The estimated useful lives for the current and comparative periods are as follows:

Buildings	50 years
Machinery and equipment	4-18 years
Vehicles	5-18 years
Furniture and fixtures	2-18 years
Leasehold improvements	1-15 years

Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

### 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

#### e) Intangible assets

##### i) Goodwill:

Goodwill that arises upon the acquisition of subsidiaries and joint ventures is included in intangible assets. For the measurement of goodwill at initial recognition, see Note 3(a)(i).

##### *Subsequent measurement*

Goodwill is measured at cost less accumulated impairment losses.

##### ii) Intangible assets recognised in a business combination:

Customer relationships are the intangible assets recognised during the purchase of HAVAŞ shares in years 2005 and 2007 and purchase of HAVAŞ Europe shares in 2010 and 2011. DHMİ licence is the intangible asset recognised during the purchase of HAVAŞ shares in years 2005 and 2007. In a business combination or acquisition, the acquirer recognises separately an intangible asset of the acquiree at the acquisition date only if it meets the definition of an intangible asset and its fair value can be measured reliably. The fair values of DHMİ licence and customer relationship were determined by an independent external third party expert.

The Group applied proportionate consolidation method to account for its 60% ownership interest in HAVAŞ until 30 September 2007. Therefore, intangible assets arising from the initial acquisition of HAVAŞ were reflected by 60%, being the shareholding of the Group, in the consolidated financial statements. In accordance with IFRS 3 *Business Combinations*, the Group applied step acquisition during the purchase of the remaining 40% shareholding in HAVAŞ. Customer relationship and DHMİ licence were remeasured to their fair values. The fair value change attributable to 60% portion was recorded to the revaluation reserve under equity. This figure reflected the change in fair value of intangible assets which were already carried in the consolidated financial statements prior to the acquisition of the additional 40% shareholding.

##### iii) Internally generated software:

Internally generated software consists of airport software developed by TAV Bilişim. Internally generated software with finite useful lives is measured at cost less accumulated amortisation and impairment losses.

##### iv) Other intangible assets:

Other intangible assets that are acquired by the Group, which have finite useful lives, are measured at cost less accumulated amortisation and accumulated impairment losses.

##### v) Subsequent expenditure:

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated goodwill and brands, is recognised in profit or loss as incurred.

##### vi) Amortisation:

Except for goodwill, intangible assets are amortised on a straight-line basis in profit or loss over their estimated useful lives, from the date that they are available for use.

Purchased software is amortised over estimated useful lives, which is between 3-5 years. Intangible assets recognised during acquisitions of HAVAŞ and HAVAŞ Europe are customer relationships and DHMİ licence. Customer relationships have 5-10 years useful life and DHMİ licence has indefinite useful life since the duration of net cash inflow arising from DHMİ licence to the Company does not have any foreseeable limit. DHMİ licence is tested for impairment annually.

Amortisation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

##### vii) Service concession arrangements

IFRIC 12 Interpretation – According to service concession arrangements, entity recognize proceeds received for the construction, renovation works performed and other service lines rendered under non-current intangible asset or financial asset in the financial statements.

TAV Esenboğa is bound by the terms of the BOT Agreements made with DHMİ. According to the BOT agreements, TAV Esenboğa has guaranteed passenger fee to be received from DHMİ. The agreement covers a period up to May 2023 for TAV Esenboğa.

A BOT agreement was executed between TAV Tbilisi and JSC on 6 September 2005 for the operations of airport (both international, domestic terminals and parking-apron-taxi ways). The agreement covers a period up to February 2027.

A BOT agreement was executed between TAV Tunisia and OACA on 18 May 2007, for the operation of existing Monastir Habib Bourguiba Airport and new Enfidha Airport (International, domestic terminals and parking-apron-taxi-ways). The concession periods of both airports will end in May 2047.

A concession agreement was executed between TAV Gazipaşa and DHMİ on 4 January 2008 for the operation of Alanya Gazipaşa Airport (air side, land side, parking-apron-taxi ways). The agreement covers a period up to May 2034.

On 24 September 2008, a BOT agreement for the construction and operation of Alexander the Great Airport in Skopje, renovation and operation of the St. Paul the Apostle Airport in Ohrid, and the construction and optional operation of the New Cargo Airport in Shtip airports was signed between TAV Macedonia and the Ministry of Transport and Communication of Macedonia. The agreement covers a period up to March 2030.

A concession agreement was executed between TAV Ege and DHMİ on 16 December 2011 for the construction and operation of the domestic terminal of İzmir Adnan Menderes Airport and for taking-over the international terminal on January 2015. The agreement covers a period up to December 2032.

A concession agreement was executed between TAV Milas Bodrum and DHMİ on 11 July 2014 for the leasing of the operating rights of the Milas Bodrum Airport's existing international terminal, CIP, general aviation terminal, domestic terminal and its auxiliaries. The agreement covers the operation right of the international terminal starting from October 2015 to December 2035 (approximately 20 years and 2 months) and operation right of the domestic terminal starting from July 2015 to December 2035.

### 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

#### e) Intangible assets (continued)

##### vii) Service concession arrangements (continued)

###### i) Intangible assets:

The Group recognises an intangible asset arising from a service concession agreement when it has a right to charge for usage of concession infrastructure. Intangible assets received as consideration for providing construction or upgrade services in a service concession agreement are measured at fair value upon initial recognition. Subsequent to initial recognition the intangible asset is measured at cost less accumulated amortisation and accumulated impairment losses.

The fair value of the consideration received or receivable for the construction services delivered includes a mark-up on the actual costs incurred to reflect a margin consistent with other similar construction work. Mark-up rates for TAV Esenboğa, TAV Gazipaşa, TAV Macedonia and TAV Ege are 0%, TAV Tbilisi and TAV Tunisia are 15% and 5% respectively.

The estimated useful life of an intangible asset in a service concession arrangement is the period from when the Group is able to charge the public for the use of the infrastructure to the end of the concession period. Amortisation of airport operation right is calculated based on units of production method over estimated passenger figures for Domestic Terminal of İzmir Adnan Menderes International Airport, Milas Bodrum Airport.

Amortisation of airport operation right is calculated on a straight-line basis over their estimated useful lives for Alanya-Gazipaşa Airport, Macedonia Skopje and Ohrid Airports, Tbilisi International Airport and Medinah International Airport until 30 June 2017. The straight-line basis method changed to units of production method over estimated passenger figures prospectively as at 1 July 2017. If amortisation of airport operation right was calculated on a straight-line basis, accumulated amortisation would be EUR 407,131 and amortisation for the period would be EUR 62,405.

###### ii) Financial assets:

The Group recognises the guaranteed passenger fee amount due from DHMİ as financial asset which is determined by the agreements with TAV Esenboğa and TAV Ege. Financial assets are initially recognised at fair value and carried at discounted fair value for the subsequent periods.

###### iii) Accounting for operations contract (TAV İstanbul):

The costs associated with the operations contract primarily include rental payments and payments made to enhance and improve ADAT. TAV İstanbul prepaid certain rental amounts and the prepayment is deferred as prepaid rent and is recognised over the life of the prepayment period. The expenditures TAV İstanbul incurs to enhance and improve the domestic terminal are recorded as prepaid development expenditures and are being amortised over the life of the associated contract. Any other costs associated with regular maintenance are expensed in the period in which they are incurred.

TAV İstanbul has control over significant portion of revenue and has control over price. Therefore, no intangible asset or financial asset is recognised in TAV İstanbul's financial statements and the revenue and costs relating to the operation services are recognised in accordance with IAS 18.

### 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

#### f) Leased assets

Leases in terms of which the Group assumes substantially all the risks and rewards of ownership are classified as finance leases. Upon initial recognition the leased asset is measured at an amount equal to the lower of its fair value and the present value of the minimum lease payments. Subsequent to initial recognition, the asset is accounted for in accordance with the accounting policy applicable to that asset.

According to financial lease agreements, minimum lease payments are allocated to financial expense and decrease in remaining balance. Finance expense, divided to each period of the agreement in order to generate fixed period interest rate over remaining finance expense liability.

Other leases are operating leases and the leased assets are not recognised on the Group's consolidated statement of financial position.

Under operational leases, disbursements accounted with straight line method, under profit or loss during the lease period.

Contingent operational lease payments, accounted by changes in minimum lease payments for the remaining lease period

#### g) Inventories

Inventories are measured at the lower of cost and net realisable value. The cost of inventories is based on the first-in first-out (FIFO) principle, and includes expenditure incurred in acquiring the inventories, production or conversion costs and other costs incurred in bringing them to their existing location and condition.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and estimated costs necessary to make sale.

#### h) Impairment

##### *i) Non-derivative financial assets:*

A financial asset not carried at fair value through profit or loss is assessed at each reporting date to determine whether there is any objective evidence that it is impaired. A financial asset is impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and the loss event had a negative effect on the estimated future cash flows of that asset that can be estimated reliably.

Objective evidence that financial assets are impaired can include default or delinquency by a debtor, restructuring of an amount due to the Group on terms that the Group would not consider otherwise, indications that a debtor or issuer will enter bankruptcy, adverse changes in the payment status of borrowers or issuers, economic conditions that correlate with defaults or the disappearance of an active market for a security.

##### *Financial assets measured at amortised cost*

The Group considers evidence of impairment for loans and receivables at both a specific asset and collective level. All individually significant receivables are assessed for specific impairment.

An impairment loss in respect of a financial asset measured at amortised cost is calculated as the difference between its carrying amount, and the present value of the estimated future cash flows discounted at the asset's original effective interest rate. Losses are recognised in profit or loss and reflected in an allowance account against loans and receivables. Interest on the impaired asset continues to be recognised. When a subsequent event causes the amount of impairment loss to decrease, the decrease in impairment loss is reversed through profit or loss.

### 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

#### **h) Impairment (continued)**

##### **ii) Non-financial assets:**

The carrying amounts of the Group's non-financial assets, other than inventories and deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For goodwill and intangible assets that have indefinite lives or that are not yet available for use, the recoverable amount is estimated each period at the same time. An impairment loss is recognised if the carrying amount of an asset or its related CGU exceeds its estimated recoverable amount.

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a post-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets (the "CGU"). Goodwill acquired in a business combination is allocated to groups of CGU's that are expected to benefit from the synergies of the combination.

Impairment losses are recognised in profit or loss. Impairment losses recognised in respect of CGUs are allocated first to reduce the carrying amount of any goodwill allocated to the CGU (group of CGUs), and then to reduce the carrying amounts of the other assets in the CGU (group of CGUs) on a *pro rata* basis.

An impairment loss in respect of goodwill is not reversed. For other assets, an impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

##### **i) Reserve for employee severance indemnity**

In accordance with the existing labour law in Turkey, the Group entities operating in Turkey are required to make lump-sum payments to employees who have completed one year of service and whose employment is terminated without cause or who retire, are called up for military service or die. Such payments are calculated on the basis of 30 days' pay maximum full TRL 4,732 as at 31 December 2017 (equivalent to full EUR 1,048 as at 31 December 2017) (31 December 2016: full TRL 4,297 (equivalent to full EUR 1,158 as at 31 December 2016)) per year of employment at the rate of pay applicable at the date of retirement or termination. Reserve for retirement pay is computed and reflected in the accompanying consolidated financial statements on a current basis. The management of the Group used some assumptions (detailed in Note 27) in the calculation of the retirement pay provision. The calculation was based upon the retirement pay ceiling announced by the Government.

All actuarial differences are recognised immediately in other comprehensive income.

##### **j) Provisions**

A provision is recognised if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money where appropriate and the risks specific to the liability.

### 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

#### k) Revenue

Revenue from the sale of goods in the course of ordinary activities is measured at the fair value of the consideration received or receivable, net of returns, trade discounts and volume rebates. Revenue is recognised when significant risks and rewards of ownership have been transferred to the customer, recovery of the consideration is probable, the associated costs and possible return of goods can be estimated reliably, there is no continuing management involvement with the goods, and the amount of revenue can be measured reliably. If it is probable that discounts will be granted and the amount can be measured reliably, then the discount is recognised as a reduction of revenue as the sales are recognised.

*Construction revenue and expenditure:* Construction revenue and expenditure are recognised by reference to the stage of completion of the contract activity at the reporting date, as measured by the proportion that contract costs incurred for work performed to date bear to the estimated total contract costs. Variations in contract work, claims and incentive payments are included to the extent that they have been agreed with the customer.

Where the outcome of a construction contract cannot be estimated reliably, contract revenue is recognised to the extent of contract costs incurred that it is probable will be recoverable. Contract costs are recognised as expenses in the period in which they are incurred.

When it is probable that total contract costs will exceed total contract revenue, the expected loss is recognised as an expense immediately.

*Service concession agreements:* Revenue relating to construction services under a service concession arrangement is recognised based on the stage of completion of the work performed, consistent with the Group's accounting policy on recognising revenue on construction contracts. Operation or service revenue is recognised in the period in which the services are provided by the Group. When the Group provides more than one service in a service concession arrangement the consideration received is allocated by reference to the relative fair values of the services delivered.

*Aviation income:* Aviation income is recognised based on the daily reports obtained from related airline companies for terminal service income charged to passengers, as well as for ramps utilised by aircraft and check-in counters utilised by the airlines.

*Area allocation income:* Area allocation income is recognised by the issuance of monthly invoices based on the contracts made for allocated areas in the terminal.

*Catering services income:* Catering services income is recognised when services are provided. The Group defers revenue for collections from long-term contracts until the services are provided. There are no deferred costs related to these revenues since these are related with the selling rights given to food and beverage companies to sell their products at domestic and international lines terminals as well as third parties out of the terminals where the subsidiaries operate.

*Ground handling income:* Ground handling income is recognised when the services are provided.

*Commission:* The Group subcontracts the right to operate certain duty free operations and the catering services to third parties. The third parties pay the Group a specified percentage of their sales for the right to operate these concessions. The commission revenue is recognised based on the sales reports provided from the subcontractor entities in every 2 to 3 days.

#### **k) Revenue (continued)**

*Software and system sales:* Software and system sales are recognised when goods are delivered and title has passed or when services are provided.

*Income from lounge services:* Income from lounge services is recognised when services are provided.

*Bus and car parking operations:* Income from bus and car parking operations is recognised when services are provided.

*Income from airline taxi services:* Income from airline taxi services is recognised when services are provided.

#### **l) Finance income and finance costs**

Finance income comprises interest income on funds invested, dividend income and gains on hedging instruments that are recognised in profit or loss. Interest income is recognised as it accrues in profit or loss, using the effective interest method. Dividend income is recognised in profit or loss on the date that the Group's right to receive payment is established.

Finance costs comprise interest expense on borrowings, impairment losses recognised on financial assets, (other than trade receivables) and ineffective portion of hedging instruments. Borrowing costs that are not directly attributable to the acquisition, construction or production of a qualifying asset are recognised in profit or loss using the effective interest method.

Foreign currency gains and losses on financial assets and financial liabilities are reported on a net basis as either finance income or finance cost depending on whether foreign currency movements are in a net gain or net loss position.

#### **m) Tax**

Tax expense comprises current and deferred tax. Current and deferred tax is recognised in profit or loss except to the extent that it relates to a business combination, or items recognised directly in equity or in other comprehensive income.

##### ***i) Current Tax:***

Current tax is the expected tax payable or receivable on the taxable income or loss for the period, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

#### m) Tax (continued)

##### ii) Deferred Tax:

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for the following temporary differences: the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss, and differences relating to investments in subsidiaries and joint ventures to the extent that the Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future. In addition, deferred tax is not recognised for taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity.

A deferred tax asset is recognised for unused tax losses, tax credits and deductible temporary differences, to the extent that it is probable that future taxable profits will be available against which they can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

The Turkish tax legislation does not permit a parent company and its subsidiaries to file a consolidated tax return. Therefore, provisions for taxes, as reflected in the accompanying consolidated financial statements, have been calculated on a separate-entity basis.

##### iii) Tax exposures:

In determining the amount of current and deferred tax the Group takes into account the impact of uncertain tax positions and whether additional taxes and interest may be due. The Group believes that its accruals for tax liabilities are adequate for all open tax years based on its assessment of many factors, including interpretations of tax law and prior experience. This assessment relies on estimates and assumptions and may involve a series of judgments about future events. New information may become available that causes the Group to change its judgement regarding the adequacy of existing tax liabilities; such changes to tax liabilities will impact tax expense in the period that such a determination is made.

#### n) Earnings per share

The Group presents basic and diluted earnings per share (“EPS”) data for its ordinary shares. Basic and diluted EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the owners of the company by the weighted average number of ordinary shares outstanding during the period. There are no dilutive potential shares.

#### **o) Segment reporting**

An operating segment is a component of the Group and its joint ventures that engages in business activities from which it may earn revenues and incur expenses including revenues and expenses that relate to transactions with any of the Group's other components. All operating segments' operating results are regularly reviewed by the Group Management to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available.

Segment results that are reported to the Group management include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items comprise mainly corporate assets (primarily the Company's headquarters), head office expenses, and income tax assets and liabilities.

Segment capital expenditure is the total cost incurred during the period to acquire property and equipment, and intangible assets other than goodwill.

#### **p) The new standards, amendments and interpretations**

The accounting policies adopted in preparation of the consolidated financial statements as at 31 December 2017 are consistent with those of the previous financial year, except for the adoption of new and amended IFRS and IFRIC interpretations effective as of 1 January 2017. The effects of these standards and interpretations on the Group's financial position and performance have been disclosed in the related paragraphs.

*i) The new standards, amendments and interpretations which are effective as at 1 January 2017 are as follows:*

#### ***IAS 7 Statement of Cash Flows (Amendments)***

The IASB issued amendments to IAS 7 'Statement of Cash Flows'. The amendments are intended to clarify IAS 7 to improve information provided to users of financial statements about an entity's financing activities. The improvements to disclosures require companies to provide information about changes in their financing liabilities. These amendments are to be applied for annual periods beginning on or after 1 January 2017 with earlier application permitted. When the Group first applies those amendments, it is not required to provide comparative information for preceding periods. The Group disclosed additional information in its annual consolidated financial statements for the year ended 31 December 2017.

#### ***IAS 12 Income Taxes: Recognition of Deferred Tax Assets for Unrealised Losses (Amendments)***

The IASB issued amendments to IAS 12 Income Taxes. The amendments clarify how to account for deferred tax assets related to debt instruments measured at fair value. The amendments clarify the requirements on recognition of deferred tax assets for unrealised losses, to address diversity in practice. These amendments are to be retrospectively applied for annual periods beginning on or after 1 January 2017 with earlier application permitted. However, on initial application of the amendment, the change in the opening equity of the earliest comparative period may be recognised in opening retained earnings (or in another component of equity, as appropriate), without allocating the change between opening retained earnings and other components of equity. If the Group applies this relief, it shall disclose that fact.

#### p) The new standards, amendments and interpretations (continued)

*i) The new standards, amendments and interpretations which are effective as at 1 January 2017 are as follows (continued):*

##### *Annual Improvements to IFRSs - 2014-2016 Cycle*

The IASB issued Annual Improvements to IFRS Standards 2014–2016 Cycle, amending the following standards:

##### *IFRS 12 Disclosure of Interests in Other Entities:*

This amendment clarifies that an entity is not required to disclose summarised financial information for interests in subsidiaries, associates or joint ventures that is classified, or included in a disposal group that is classified, as held for sale in accordance with IFRS 5 Non-current Assets Held for Sale and Discontinued Operations. These amendments are to be applied for annual periods beginning on or after 1 January 2017.

##### *ii) Standards issued but not yet effective and not early adopted*

Standards, interpretations and amendments to existing standards that are issued but not yet effective up to the date of issuance of the consolidated financial statements are as follows. The Group will make the necessary changes if not indicated otherwise, which will be affecting the consolidated financial statements and disclosures, when the new standards and interpretations become effective.

##### *IFRS 10 and IAS 28: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (Amendments)*

Amendments issued to IFRS 10 and IAS 28, to address the acknowledged inconsistency between the requirements in IFRS 10 and IAS 28 in dealing with the loss of control of a subsidiary that is contributed to an associate or a joint venture, to clarify that an investor recognises a full gain or loss on the sale or contribution of assets that constitute a business, as defined in IFRS 3, between an investor and its associate or joint venture. The gain or loss resulting from the re-measurement at fair value of an investment retained in a former subsidiary should be recognised only to the extent of unrelated investors' interests in that former subsidiary. In December 2015, the IASB postponed the effective date of this amendment indefinitely pending the outcome of its research project on the equity method of accounting. Early application of the amendments is still permitted. An entity shall apply those amendments prospectively. The Group is in the process of assessing the impact of the amendments on financial position or performance of the Group.

##### *IFRS 15 Revenue from Contracts with Customers*

The IASB issued IFRS 15 Revenue from Contracts with Customers. The new five-step model in the standard provides the recognition and measurement requirements of revenue. The standard applies to revenue from contracts with customers and provides a model for the sale of some non-financial assets that are not an output of the entity's ordinary activities (e.g., the sale of property, plant and equipment or intangibles). IFRS 15 effective date is 1 January 2018, with early adoption permitted. Entities will transition to the new standard following either a full retrospective approach or a modified retrospective approach. The modified retrospective approach would allow the standard to be applied beginning with the current period, with no restatement of the comparative periods, but additional disclosures are required. The impact of the standard on the financial position and performance of the Group is not significant.

##### *Annual Improvements to IFRSs - 2014-2016 Cycle (continued)*

##### *Clarifications to IFRS 15 'Revenue from Contracts with Customers' (Amendment)*

IASB has published final clarifications to IFRS 15 in April 2016. The amendments address three of the five topics identified (identifying performance obligations, principal versus agent considerations, and licensing) and provide some transition relief for modified contracts and completed contracts. The amendments are effective for annual reporting periods beginning on or after 1 January 2018. Earlier application is permitted. The impact of the standard on the financial position and performance of the Group is as follows:

IFRS 15 impact on TAV's revenues is not significant on 2017 revenues. Considering the limited impact, the Group has chosen to apply the new standard retrospectively adjusting each comparative period presented and recognize the cumulative effect of applying the new standard at the start of the earliest period presented.

##### *IFRS 9 Financial Instruments*

In July 2014, the IASB issued the final version of IFRS 9 Financial Instruments. The final version of IFRS 9 brings together all three aspects of the accounting for financial instruments project: classification and measurement, impairment and hedge accounting. IFRS 9 is built on a logical, single classification and measurement approach for financial assets that reflects the business model in which they are managed and their cash flow characteristics. Built upon this is a forward-looking expected credit loss model that will result in more timely recognition of loan losses and is a single model that is applicable to all financial instruments subject to impairment accounting. In addition, IFRS 9 addresses the so-called 'own credit' issue, whereby banks and others book gains through profit or loss as a result of the value of their own debt falling due to a decrease in credit worthiness when they have elected to measure that debt at fair value. The Standard also includes an improved hedge accounting model to better link the economics of risk management with its accounting treatment. IFRS 9 is effective for annual periods beginning on or after 1 January 2018, with early application permitted by applying all requirements of the standard. Alternatively, entities may elect to early apply only the requirements for the presentation of gains and losses on financial liabilities designated as FVTPL without applying the other requirements in the standard. The Group has performed an impact assessment of IFRS 9. This assessment is based on currently available information and may be subject to changes arising from further detailed analyses or additional supportable information being made available to the Group in the future. The impact of standard on all three aspects of IFRS 9 is as follows:

##### *Classification and Measurement of Financial Assets:*

The Group does not expect a significant impact on its balance sheet or equity on applying the classification and measurement requirements of IFRS 9. It expects to continue measuring at fair value all financial assets currently held at fair value. Quoted equity shares currently held as available-for-sale with gains and losses recorded in OCI will, instead, be measured at fair value through profit or loss, which will increase volatility in recorded profit or loss.

The equity shares in non-listed companies are intended to be held for the foreseeable future. No impairment losses were recognised in profit or loss during prior periods for these investments. The Group will apply the option to present fair value changes in OCI, and, therefore, the application of IFRS 9 will not have a significant impact.

Loans as well as trade receivables are held to collect contractual cash flows and are expected to give rise to cash flows representing solely payments of principal and interest. The Group analysed the contractual cash flow characteristics of those instruments and concluded that they meet the criteria for amortised cost measurement under IFRS 9. Therefore, reclassification for these instruments is not required.

### 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

#### p) The new standards, amendments and interpretations (continued)

##### ii) Standards issued but not yet effective and not early adopted (continued):

##### *Annual Improvements to IFRSs - 2014-2016 Cycle (continued)*

##### *IFRS 9 Financial Instruments (continued)*

##### *Impairment:*

IFRS 9 requires the Group to record expected credit losses on all of its debt securities, loans and trade receivables, either on a 12-month or lifetime basis. The Group will apply the simplified approach and record lifetime expected losses on all trade receivables. The Group has determined that, it should not have a significant impact on Group's consolidated accounts.

##### *Hedge accounting:*

The Group determined that all existing hedge relationships that are currently designated in effective hedging relationships will continue to qualify for hedge accounting under IFRS 9. As IFRS 9 does not change the general principles of how an entity accounts for effective hedges, applying the hedging requirements of IFRS 9 will not have a significant impact on Group's financial statements.

##### *IFRS 16 Leases*

The IASB has published a new standard, IFRS 16 'Leases'. The new standard brings most leases on-balance sheet for lessees under a single model, eliminating the distinction between operating and finance leases. Lessor accounting however remains largely unchanged and the distinction between operating and finance leases is retained. IFRS 16 supersedes IAS 17 'Leases' and related interpretations and is effective for periods beginning on or after January 1, 2019, with earlier adoption permitted if IFRS 15 'Revenue from Contracts with Customers' has also been applied. The Group is in the process of assessing the impact of the standard on financial position or performance of the Group.

##### *IFRS 2 Classification and Measurement of Share-based Payment Transactions (Amendments)*

The IASB issued amendments to IFRS 2 Share-based Payment, clarifying how to account for certain types of share-based payment transactions. The amendments, provide requirements on the accounting for; the effects of vesting and non-vesting conditions on the measurement of cash-settled share-based payments, share-based payment transactions with a net settlement feature for withholding tax obligations; and a modification to the terms and conditions of a share-based payment that changes the classification of the transaction from cash-settled to equity-settled.

These amendments are to be applied for annual periods beginning on or after 1 January 2018. Earlier application is permitted. The amendment are not applicable for the the Group and will not have an impact on the financial position or performance of the Group.

#### p) The new standards, amendments and interpretations (continued)

##### ii) *Standards issued but not yet effective and not early adopted (continued):*

##### *Annual Improvements to IFRSs - 2014-2016 Cycle (continued)*

##### *IFRS 4 Insurance Contracts (Amendments)*

In September 2016, the IASB issued amendments to IFRS 4 Insurance Contracts. The amendments introduce two approaches: an overlay approach and a deferral approach. These amendments are to be applied for annual periods beginning on or after 1 January 2018. Earlier application is permitted. The standard is not applicable for the Group and will not have an impact on the financial position or performance of the Group.

##### *IAS 40 Investment Property: Transfers of Investment Property (Amendments)*

The IASB issued amendments to IAS 40 'Investment Property'. The amendments state that a change in use occurs when the property meets, or ceases to meet, the definition of investment property and there is evidence of the change in use. These amendments are to be applied for annual periods beginning on or after 1 January 2018. Earlier application is permitted. The Group is in the process of assessing the impact of the amendments on financial position or performance of the Group.

##### *IFRIC 22 Foreign Currency Transactions and Advance Consideration*

The interpretation clarifies the accounting for transactions that include the receipt or payment of advance consideration in a foreign currency.

The Interpretation states that the date of the transaction for the purpose of determining the exchange rate to use on initial recognition of the related asset, expense or income is the date on which an entity initially recognises the non-monetary asset or non-monetary liability arising from the payment or receipt of advance consideration. An entity is not required to apply this Interpretation to income taxes; or insurance contracts (including reinsurance contracts) it issues or reinsurance contracts that it holds.

The interpretation is effective for annual reporting periods beginning on or after 1 January 2018. Earlier application is permitted. The Group is in the process of assessing the impact of the interpretation on financial position or performance of the Group.

The IASB issued Annual Improvements to IFRS Standards 2014–2016 Cycle, amending the following standards:

-IFRS 1 First-time Adoption of International Financial Reporting Standards: This amendment deletes the short-term exemptions about some IFRS 7 disclosures, IAS 19 transition provisions and IFRS 10 Investment Entities. These amendments are to be applied for annual periods beginning on or after 1 January 2018.

-IAS 28 Investments in Associates and Joint Ventures: This amendment clarifies that the election to measure an investment in an associate or a joint venture held by, or indirectly through, a venture capital organisation or other qualifying entity at fair value through profit or loss applying IFRS 9 Financial Instruments is available for each associate or joint venture, at the initial recognition of the associate or joint venture. These amendments are to be applied for annual periods beginning on or after 1 January 2018. Earlier application is permitted.

The Group is in the process of assessing the impact of the amendments on financial position or performance of the Group.

##### *IFRIC 23 Uncertainty over Income Tax Treatments*

The interpretation clarifies how to apply the recognition and measurement requirements in “IAS 12 Income Taxes” when there is uncertainty over income tax treatments.

When there is uncertainty over income tax treatments, the interpretation addresses: whether an entity considers uncertain tax treatments separately, the assumptions an entity makes about the examination of tax treatments by taxation authorities, how an entity determines taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates and how an entity considers changes in facts and circumstances.

An entity shall apply this Interpretation for annual reporting periods beginning on or after 1 January 2019. Earlier application is permitted. If an entity applies this Interpretation for an earlier period, it shall disclose that fact. On initial application, an entity shall apply the interpretation either retrospectively applying IAS 8, or retrospectively with the cumulative effect of initially applying the Interpretation recognised at the date of initial application.

The Group is in the process of assessing the impact of the interpretation on financial position or performance of the Group.

##### *IFRS 17 - The new Standard for insurance contracts*

The IASB issued IFRS 17, a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. IFRS 17 model combines a current balance sheet measurement of insurance contract liabilities with the recognition of profit over the period that services are provided. IFRS 17 will become effective for annual reporting periods beginning on or after 1 January 2021; early application is permitted. The standard is not applicable for the Group and will not have an impact on the financial position or performance of the Group.

##### *Amendments to IAS 28 Investments in Associates and Joint Ventures (Amendments)*

In October 2017, the IASB issued amendments to IAS 28 Investments in Associates and Joint Ventures. The amendments clarify that a company applies IFRS 9 Financial Instruments to long-term interests in an associate or joint venture that form part of the net investment in the associate or joint venture.

IFRS 9 Financial Instruments excludes interests in associates and joint ventures accounted for in accordance with IAS 28 Investments in Associates and Joint Ventures. In this amendment the IASB clarified that the exclusion in IFRS 9 applies only to interests a company accounts for using the equity method. A company applies IFRS 9 to other interests in associates and joint ventures, including long-term interests to which the equity method is not applied and that, in substance, form part of the net investment in those associates and joint ventures.

The amendments are effective for annual periods beginning on or after 1 January 2018, with early application permitted.

The Group has performed a high-level impact assessment of Amendments. This preliminary assessment is based on currently available information and may be subject to changes arising from further detailed analyses or additional supportable information being made available to the Group in the future. The Group is in the process of assessing the impact of the amendments on financial position or performance of the Group.

##### *Prepayment Features with Negative Compensation (Amendments to IFRS 9)*

In October 2017, the IASB issued minor amendments to IFRS 9 Financial Instruments to enable companies to measure some prepayable financial assets at amortised cost.

Applying IFRS 9, a company would measure a financial asset with so-called negative compensation at fair value through profit or loss. Applying the amendments, if a specific condition is met, entities will be able to measure at amortised cost some prepayable financial assets with so-called negative compensation.

The amendments are effective from annual periods beginning on or after 1 January 2019, with early application permitted.

The Group has performed a high-level impact assessment of Amendments. This preliminary assessment is based on currently available information and may be subject to changes arising from further detailed analyses or additional supportable information being made available to the Group in the future. Overall, the Group expects no significant impact on its balance sheet and equity. The Group is in the process of assessing the impact of the amendments on financial position or performance of the Group.

##### *Annual Improvements – 2015–2017 Cycle*

In December 2017, the IASB announced Annual Improvements to IFRS Standards 2015–2017 Cycle, containing the following amendments to IFRSs:

- IFRS 3 Business Combinations and IFRS 11 Joint Arrangements — The amendments to IFRS 3 clarify that when an entity obtains control of a business that is a joint operation, it remeasures previously held interests in that business. The amendments to IFRS 11 clarify that when an entity obtains joint control of a business that is a joint operation, the entity does not remeasure previously held interests in that business.

- IAS 12 Income Taxes — The amendments clarify that all income tax consequences of dividends (i.e. distribution of profits) should be recognised in profit or loss, regardless of how the tax arises.

- IAS 23 Borrowing Costs — The amendments clarify that if any specific borrowing remains outstanding after the related asset is ready for its intended use or sale, that borrowing becomes part of the funds that an entity borrows generally when calculating the capitalisation rate on general borrowings.

The Group is in the process of assessing the impact of the amendments on financial position or performance of the Group.

##### *Plan Amendment, Curtailment or Settlement (Amendments to IAS 19)*

On 7 February 2018, the IASB published Amendments to IAS 19 “Plan Amendment, Curtailment or Settlement” to harmonise accounting practices and to provide more relevant information for decision-making. The amendments require entities to use updated actuarial assumptions to determine current service cost and net interest for the remainder of the annual reporting period after a plan amendment, curtailment or settlement occurs. An entity shall apply these amendments for annual reporting periods beginning on or after 1 January 2019. Earlier application is permitted. If an entity applies these amendments for an earlier period, it shall disclose that fact. The Group is in the process of assessing the impact of the interpretation on financial position or performance of the Group.

### 4. DETERMINATION OF FAIR VALUES

Fair value determined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A number of the Group's accounting policies and disclosures require the determination of fair value, for both financial and non-financial assets and liabilities. Fair values have been determined for measurement and/or disclosure purposes based on the following methods. When applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability.

#### *i) Property and equipment:*

The fair value of property and equipment recognised as a result of a business combination is the estimated amount for which a property could be exchanged on the date of acquisition between a willing buyer and a willing seller in an arm's length transaction after proper marketing wherein the parties had each acted knowledgeably and willingly. The fair value of items of equipment, fixtures and fittings is based on the market approach and cost approaches using quoted market prices for similar items when available and depreciated replacement cost when appropriate. Depreciated replacement cost reflects adjustments for physical deterioration as well as functional and economic obsolescence.

#### *ii) Intangible assets:*

The fair value of intangible assets is based on the discounted cash flows expected to be derived from the use and eventual sale of the assets.

The fair values of customer relationship and DHMİ licence acquired in a business combination are determined according to the excess earnings method and depreciated replacement cost approach, respectively.

The airport operation right as an intangible asset is initially recognised at cost, being the fair value of consideration transferred to acquire the asset, which is the fair value of the consideration received or receivable for the construction services delivered less any financial asset recognised. The fair value of the consideration received or receivable for the construction services delivered includes a mark-up on the actual costs incurred to reflect a margin consistent with other similar construction work. Mark-up rates for TAV Esenboğa, TAV Gazipaşa, TAV Macedonia and TAV Ege are 0%, TAV Tbilisi and TAV Tunisia are 15% and 5% respectively.

#### *iii) Trade and other receivables:*

The fair value of trade and other receivables is estimated as the present value of future cash flows discounted at the market rate of interest at the reporting date. Short-term receivables with no stated interest rate are measured at the original invoice amount if the effect of discounting is immaterial. This fair value is determined for disclosure purposes or when acquired in a business combination.

#### *iv) Derivatives:*

The fair value is estimated by discounting the difference between the contractual forward price and the current forward price for the residual maturity of the contract using a risk-free interest rate (based on government bonds) or option pricing models.

The fair value of interest rate swaps is based on broker quotes. Those quotes are tested for reasonableness by discounting estimated future cash flows based on the terms and maturity of each contract and using market interest rates for a similar instrument at the measurement date.

Fair values reflect the credit risk of the instrument and include adjustments to take account of the credit risk of the Group entity and counterparty when appropriate.

### 4. DETERMINATION OF FAIR VALUES (continued)

#### v) Other non-derivative financial liabilities:

Fair value, which is determined for disclosure purposes, is calculated based on the present value of future principal and interest cash flows, discounted at the market rate of interest at the reporting date.

#### Fair value hierarchy:

The table below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3: unobservable inputs for the asset or liability.

#### 5. OPERATING SEGMENTS

##### Operating Segments:

For management purposes, the Group and its joint ventures are currently organised into four reportable segments regarding to their activities; such as Terminal Operations, Catering Operations, Duty Free Operations, Ground Handling and Bus Operations. These reportable segments are the basis on which the Group reports its primary segment information, the principal activities of each are as follows:

- **Terminal operations:** Operating terminal buildings, the car park and the general aviation terminal, the Group companies included in this segment are TAV İstanbul, TAV Esenboğa, TAV Ege, TAV Milas Bodrum, TAV Tunisia, TAV Tbilisi, TAV Batumi, Batumi Airport LLC, TAV Macedonia, TAV Gazipaşa, TAV Uluslararası Yatırım, Tibah Development, Tibah Operation, MZLZ, MZLZ Operation and AMS. TAV Tbilisi, TAV Batumi, TAV Tunisia, TAV Macedonia, TAV Gazipaşa, and MZLZ also include the ground handling operations, and parking-apron-taxi ways as they are not outsourced and are run by the airport.
- **Catering operations:** Managing all food and beverage operations of the terminal, both for the passengers and the terminal personnel, which is run by BTA, BTA Georgia, BTA Tunisia, BTA Macedonia, Cakes & Bakes, BTA Tedarik, BTA Danışmanlık, BTA Latvia, BTA Denizyolları, BTU Lokum, BTU Gıda, BTA Medinah, BS Kahve, BTA Uluslararası Yiyecek, BTA Erus and BTA MZLZ.
- **Duty free operations:** Sales of duty free goods for the international arriving and departing passengers. The Group operates its duty free services through ATU, ATU Georgia, ATU Tunisia, ATU Macedonia, ATU Latvia, ATU Tunisia Duty Free, ATU Medinah, ATU Mağazacılık, ATU Uluslararası Mağazacılık and ATU Americas.
- **Ground handling and bus operations:** Providing traffic, ramp, flight operation, cargo and all other ground handling services for domestic and international flights under the Civil Aviation Legislation License. The Group operates the ground handling services through HAVAŞ, HAVAŞ Europe, HAVAŞ Europe Helsinki, HAVAŞ Germany, TAV Gözen, TGS and Saudi HAVAŞ. ### 13. TAX EXPENSE (continued)

#### Corporate tax (continued):

##### Turkey

The Turkish entities within the Group are subject to Turkish corporate taxes. Provision is made in the accompanying consolidated financial statements for the estimated charge based on the each of the Group entities' results for the period.

Corporate tax is applied on taxable corporate income, which is calculated from the statutory accounting profit by adding back non-deductible expenses, and by deducting dividends received from resident companies, other exempt income and investment incentives utilised.

In Turkey, advance tax returns are filed on a quarterly basis. The advance corporate income tax (CIT) rate at 31 December 2017 is 20% (31 December 2016: 20%). Losses can be carried forward for offsetting against future taxable income for up to 5 years. Losses cannot be carried back.

In Turkey, there is no procedure for a final and definitive agreement on tax assessments. Companies file their tax returns between 1-25 April following the close of the accounting year to which they relate. Tax authorities may, however, examine such returns and the underlying accounting records and may revise assessments within five years.

In accordance with the Law No. 7061 which is published on December 5, 2017 in the official gazette numbered 30261, the rate of the Corporate Tax, which is 20% according to the provisional article 10 added to the Corporate Tax Law (KVK), will be applied as 22% in 2018, 2019 and 2020 for all the taxpayers. The tax legislation provides for a temporary tax to be calculated and paid based on earnings generated for each quarter. The amounts thus calculated and paid are offset against the final corporate tax liability for the year.

##### Georgia

Georgian corporate income tax is levied at a rate of 15% on income less deductible expenses. A new corporate tax treatment, which entered into effect as from 1 January 2017, has been introduced in Georgia. According to the new rule, the corporate tax liability will raise when the profit is distributed. There is no change on the corporate tax rate.

##### Tunisia

Tunisian corporate income tax is levied at a rate of 25% on income less deductible expenses (31 December 2016: 25%).

##### Macedonia

Macedonian corporate income tax is levied at a rate of 10% on income less deductible expenses as from 2014 onwards (including determination of 2014 CIT). Losses can be carried forward for 3 years provided that the accumulated accounting losses are covered by the accumulated profits.

##### Latvia

Latvian corporate income is levied at a rate of 15% on income less deductible expenses. According to the new rule, the corporate tax liability will raise when the profit is distributed. According to the new regulation introduced, corporate income tax rate will be %20 as of January 2018.

##### Germany

German corporate income is levied at a rate of 15% on income less deductible expenses. However municipalities impose a trade tax on income. Taking into account the various municipality multipliers, the combined average tax rate for corporations ranges from approximately 23% to 33%.

##### Kenya

Kenyan corporate income tax is levied at a rate of 30% on income less deductible expenses.

##### Corporate tax (continued):

###### United States

American federal corporate income tax is levied at a rate of 15-39% on income less deductible expenses.

###### Saudi Arabia

Under the Saudi Arabian tax and zakat regulations, tax / zakat status of a resident company is determined based on the nationality of its shareholders. TAV IT Saudi's all shareholders are incorporated outside GCC. So, it is subject to income tax at 20% over the gross income less allowable expenses under the law (the adjusted net profit for the year). Tax losses can be carried forward indefinitely in Saudi Arabia. However, maximum limit of the brought forward loss that can be deducted from the taxable profit for the year is 25% of the taxable profit.

###### Oman

Omani corporate income tax is levied at a rate of 15% on income less deductible expenses.

###### Chile

In the Chile, due to the tax reform as of year 2017 there are two income tax systems which are elective for tax payers (where certain requirements satisfied):

Attributed income system (AIS): Corporate tax rate is 25% for entities subject to the AIS. Also, there is additional WHT of %35 regardless of whether a dividend was effectively distributed or not, with a 100% tax credit for the FCT paid at the attributing entity's level. Total tax burden is %35 for this system.

Partially integrated system (PIS): Corporate tax rate is 25,5 % for entities subject to the PIS in 2017 and 27% in 2018. Also, there is additional WHT of %35 final taxes upon effective distribution of profits, with a tax credit of 65% of the FCT paid at the entity level. Total tax burden is %44,45 for this system.

##### Investment allowance:

The Temporary Article 69 added to the Income Tax Law no.193 with the Law no.5479, which became effective starting from 1 January 2006, upon being promulgated in the Official Gazette no. 26133 dated 8 April 2006, stating that taxpayers can deduct the amount of the investment allowance exemption which they are entitled to according to legislative provisions effective at 31 December 2005 (including rulings on the tax rate) only from the taxable income of 2006, 2007 and 2008. Accordingly, the investment incentive allowance practice was ended as of 1 January 2006. At this perspective, an investment allowance which cannot be deducted partially or fully in three years time was not allowed to be carried forward to the following years and became unavailable as of 31 December 2008. On the other hand, the Article 19 of the Income Tax Law was annulled and the investment allowance practice was ended as of 1 January 2006 with effectiveness of the Article 2 and the Article 15 of the Law no. 5479 and the investment allowance rights on the investment expenditures incurred during the period of 1 January 2006 and 8 April 2006 became unavailable.

However, at 15 October 2009, the Turkish Constitutional Court decided to cancel the clause no. 2 of the Article 15 of the Law no. 5479 and the expressions of "2006, 2007, 2008" in the Temporary Article 69 related to investment allowance mentioned above that enables effectiveness of the Law as of 1 January 2006 rather than 8 April 2006, since it is against the Constitution. Accordingly, the time limitations for the carried forward investment allowances that were entitled to in the previous period of mentioned date and the limitations related with the investments expenditures incurred between the issuance date of the Law promulgated and 1 January 2006 were eliminated. According to the decision of Turkish Constitutional Court, cancellation related with the investment allowance became effective with promulgation of the decision on the Official Gazette and the decision of the Turkish Constitutional Court was promulgated in the Official Gazette no. 27456 dated 8 January 2010.

### 13. TAX EXPENSE (continued)

#### Investment allowance (continued):

According to the decision mentioned above, the investment allowances carried forward to the year 2006 due to the lack of taxable income and the investment allowances earned through the investments started before 1 January 2006 and continued after that date constituting economic and technical integrity will be used not only in 2006, 2007 and 2008, but also in the following years. In addition, 40% of investment expenditures that are realized between 1 January 2006 and 8 April 2006, within the context of the Article 19 of the Income Tax Law will have the right for investment allowance exemption.

The Article 5 of the Law no. 6009 “Law on the Amendment of the Income Tax Law and Certain Laws and Decree Laws” which was promulgated in the Official Gazette on 1 August 2010 regulated the amount of investment incentive to be benefited in computing the corporate tax base after the cancellation of the Article no.2 of the Law no. 5479. According to the Law no. 6009, the taxpayers were allowed to benefit from the investment incentive stemming from the periods before the promulgation of the Law no. 5479, up to 25% of the taxable income of the respective tax period. Such change is effective including the fiscal year ending on 31 December 2011.

However, on 9 February 2012, the Turkish Constitutional Court decided to cancel the Article 5 of the Law no. 6009 and stay of execution of the article was promulgated in the Official Gazette no. 28208 dated 18 February 2012. Accordingly, taxpayers are allowed to benefit from the investment incentive without any limitation. The annulment of the article was promulgated in the Official Gazette no. 28719 dated 26 July 2013.

#### Income withholding tax:

According to Corporate Tax Law code numbered 5520 article 15, companies who are resident in Turkey, should calculate 15% income withholding tax on dividends distributed to non-resident companies, individuals and resident individuals. Where there is a tax treaty between Turkey and the country of the dividend recipient is a resident taxpayer, the applicable rate might be less than the local rate. Undistributed dividends incorporated in share capital are not subject to income withholding taxes.

#### Transfer pricing regulations:

In Turkey, the transfer pricing provisions have been stated under the Article 13 of Corporate Tax Law with the heading of “disguised profit distribution via transfer pricing”. The General Communiqué on disguised profit distribution via Transfer Pricing, dated 18 November 2007 sets details about implementation.

If a taxpayer enters into transactions regarding sale or purchase of goods and services with related parties, where the prices are not set in accordance with arm's length principle, then related profits are considered to be distributed in a disguised manner through transfer pricing. Such disguised profit distributions through transfer pricing are not accepted as tax deductible for corporate income tax purposes.

#### The Law numbered 6736

The Law numbered 6736 has been put into effect following its promulgation in the Official Gazette on 19 August 2016. According to the law, apart from the VAT refundable or/and already refunded in cash, no tax investigation or tax assessment regarding corporate and value added taxes will be made for the tax-payers who increase their tax bases for the years between 2011 and 2015.

Some of the subsidiaries of the Group have benefited from the aforementioned law for the fiscal years 2011-2015 for corporate and value added taxes by increasing their tax bases, which resulted in additional value added and corporate taxes amounting to EUR 617 and VAT amounting to EUR 344.

#### 15. INTANGIBLE ASSETS (continued)

DHMI licenses acquired through the purchase of HAVAŞ shares in years 2005 and 2007 were recognised with indefinite useful lives since there is no foreseeable limit to the period over which they are expected to generate net cash inflows. The useful life of DHMI license associated with the acquisition of HAVAŞ was deemed indefinite since;

- without these licenses ground handling companies could not operate,
- it is difficult to obtain the licence, which requires high pre-operational costs and procurement of workforce and equipment required to deliver ground handling services
- the continuity of the license requires low annual payments compared to initial license cost.

The replacement cost method was used in order to determine the fair value of the DHMI licences for impairment testing. As a result of the impairment testing no impairment was recognized.

#### Goodwill

An analysis of goodwill as at 31 December 2017 and 2016 is as follows:

	<u>31 December 2017</u>	<u>31 December 2016</u>
Balance at 1 January	135,831	135,831
Addition during the year	219	-
<b>Balance at the end of the year</b>	<b><u>136,050</u></b>	<b><u>135,831</u></b>

Goodwill is related with the CGU's HAVAŞ, HAVAŞ Europe and TAV Tbilisi as at 31 December 2017 and 2016.

#### **Impairment testing for CGU's**

For the purpose of impairment testing, goodwill is allocated to CGU's. The aggregate carrying amounts of goodwill allocated to each CGU are as follows:

	<u>31 December 2017</u>	<u>31 December 2016</u>
HAVAŞ	131,565	131,565
TAV Tbilisi	3,858	3,858
HAVAŞ Europe	408	408
Other	219	-
	<b><u>136,050</u></b>	<b><u>135,831</u></b>

A valuation for the fair values of HAVAŞ, TAV Tbilisi and HAVAŞ Europe as three separate CGU's was performed by an independent valuation expert. The income and market approaches were used to determine the fair values of HAVAŞ, TAV Tbilisi and HAVAŞ Europe. In the analysis, income approach (discounted cash flow method) was mostly used, with lower weightings applied to the value of HAVAŞ, TAV Tbilisi and HAVAŞ Europe resulting from the Guideline Transaction and Company methods.

#### 15. INTANGIBLE ASSETS (continued)

##### Impairment testing for CGU's (continued)

25-year business plan prepared by the management for HAVAŞ and 13-year business plan prepared by the management for TAV Tbilisi were used in the valuation of companies. The growth in business plan of HAVAŞ and TAV Tbilisi is driven by the opportunities in companies' businesses and addition of new customers.

As a result of the impairment testing performed on CGU basis, no impairment loss was recognised for HAVAŞ, TAV Tbilisi and HAVAŞ Europe as at 31 December 2017.

##### Key assumptions used in discounted cash flow projections

Key assumptions used in calculation of recoverable amounts are discount rates and terminal growth rates. These assumptions are as follows:

	31 December 2017	
	Pre-tax discount rate	Terminal growth rate
HAVAŞ	13.3%	2.0%
TAV Tbilisi	19.0%	-
HAVAŞ Europe	16.2%	2.5%

  

	31 December 2016	
	Pre-tax discount rate	Terminal growth rate
HAVAŞ	15.6%	2.0%
TAV Tbilisi	18.7%	-
HAVAŞ Europe	16.7%	2.5%

##### Discount rate

The discount rates used in discounted cash flows are the weighted average cost of capitals ("WACC") of the companies.

Terminal growth rate for HAVAŞ is determined as 2.0% and HAVAŞ Europe as 2.5%. Since TAV Tbilisi has a limited life, terminal growth rate is not used in the valuation.

##### Market Approach

The Guideline Transaction Method utilises valuation multiples based on actual transactions that have occurred in the subject company's industry. These derived multiples are then applied to the appropriate operating data of the subject company to arrive at an indication of fair market value. Guideline Company Method focuses on comparing the subject company to guideline publicly-traded companies.

### 18. DEFERRED TAX ASSETS AND LIABILITIES

The Group recognises deferred tax assets and liabilities in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. These differences usually result in the recognition of revenue and expenses in different reporting periods for IFRS and tax purposes and they are given below.

For calculation of deferred tax asset and liabilities, the rate of 20% for subsidiaries and joint ventures in Turkey (31 December 2016: 20%), the rate of 25% for subsidiaries in Tunisia (31 December 2016: 25%) and the rate of 10% for subsidiaries in Macedonia (31 December 2016: 10%) are used.

#### Recognised deferred tax assets and liabilities

As at 31 December 2017 and 2016, deferred tax assets and liabilities are attributable to the following:

	Assets		Liabilities		Net

### 18. DEFERRED TAX ASSETS AND LIABILITIES (continued)

At the reporting date, the Group has unused tax losses of EUR 257,681 (31 December 2016: EUR 218,398) available for offset against future profits. Tax losses can be carried forward for five years under the current tax legislation adopted in Turkey. Deferred tax asset amounting to EUR 170 related with the tax losses (31 December 2016: EUR 243) is recognised as at 31 December 2017, since it is assessed as probable that sufficient future taxable profits will be available, through increase in passenger numbers and improved operational performance in the following years. Total unused tax loss carry forwards will expire as follows:

	<u>31 December 2017</u>	<u>31 December 2016</u>
Expire in year 2017	-	4,551
Expire in year 2018	15,919	32,446
Expire in year 2019 and after	241,762	181,401
<b>Total</b>	<b><u>257,681</u></b>	<b><u>218,398</u></b>

As per the annulment decision of the Turkish Constitutional Court (see Note 13) in 2012, TAV Esenboğa and TAV Ege, consolidated subsidiaries of the Group, are subject to investment allowance ruling and can use their available allowances to reduce their taxable corporate income without any time limitations. Accordingly, deferred tax asset amounting to EUR 29,836 (31 December 2016: EUR 31,450) on such investment allowance of TAV Esenboğa and TAV Ege is recorded in the accompanying consolidated financial statements as at 31 December 2017 since it is assessed as probable that TAV Esenboğa and TAV Ege will use their right of deducting investment allowances from their corporate income after deducting carry forward tax losses to the extent that sufficient future taxable profits will be available till the end of their concession periods.

#### Unrecognised deferred tax assets and liabilities

Unrecognised deferred tax assets related to tax-loss carry forwards as at 31 December 2017 and 2016 are as follows:

	<u>31 December 2017</u>	<u>31 December 2016</u>
Unrecognised deferred tax assets	59,885	52,654
	<b><u>59,885</u></b>	<b><u>52,654</u></b>

Deferred tax assets have not been recognised in respect of the tax loss carry forwards where it is not probable that future taxable profit will be available against which the Group can utilise the benefits there from till the end of concession periods.

As at 31 December 2017, a deferred tax liability of EUR 90,155 (31 December 2016: EUR 71,223) related to investments in subsidiaries and joint ventures was not recognised since it is not assessed as probable that the temporary difference will reverse in the foreseeable future.

#### Legal reserves

According to the Turkish Commercial Code (“TCC”), legal reserves are comprised of first and second legal reserves. The first legal reserves are generated by annual appropriations amounting to 5 percent of income disclosed in the Company’s statutory accounts until it reaches 20 percent of paid-in share capital. If the dividend distribution is made in accordance with Dividend Distribution Communiqué II-19.1, a further 1/10 of dividend distributions, in excess of 5 percent of paid-in capital is to be appropriated to increase second legal reserves. If the dividend distribution is made in accordance with statutory records, a further 1/11 of dividend distributions, in excess of 5 percent of paid-in capitals are to be appropriated to increase second legal reserves. Under the TCC, the legal reserves can be used only to offset losses and are not available for any other usage unless they exceed 50 percent of paid-in capital. At 31 December 2017, legal reserves of the Group amounted to EUR 109,935 (31 December 2016: EUR 110,724).

### 24. CAPITAL AND RESERVES (continued)

#### Non-controlling interests

Equity in a subsidiary that is not attributable, directly or indirectly, to a parent is classified under the “Non-controlling interests” in the consolidated financial statements.

As at 31 December 2017 and 2016 the related amounts in the “Non-controlling interests” in the consolidated statement of financial position are respectively EUR 4,193 liability and EUR 1,011 liability. In addition, net profit or loss in a subsidiary that is not attributable, directly or indirectly, to a parent is also classified under the “Non-controlling interests” in the consolidated financial statements. As at 31 December 2017 and 2016, profit amounts attributable to non-controlling interests in the consolidated statement of comprehensive income are respectively EUR 8,779 gain and EUR 6,617 loss.

#### Dividend distribution

Publicly held companies distribute dividends based on the Capital Market Board (“CMB”) Dividend Communique numbered II-19.1 effective from 1 February 2014.

Companies distribute their profits in accordance with their dividend policy determined by the General Assembly and with General Assembly resolution in accordance with provisions of the relevant legislation. According to the aforementioned communique, 50% distribution rate has been determined. Companies pay dividends according to their articles of association or dividend distribution policy. In addition, dividends may be paid in equal or different amount of installments, and cash dividend advances may be distributed over profit for the period presented in interim financial statements.

In 2017 the Company distributed dividends to the shareholders amounting to EUR 63,629 (TRL 247,952) from the Company’s distributable profits computed for 2016. Dividends per share is full EUR 0.18 (full TRL 0.68).

The Board of Directors of the Company has decided to distribute dividend amounting to TRL 406,372 (equivalent to EUR 87,251) in cash from the profit for the year 2017 with the decision numbered 2018/x as of 21 February 2018. The decision will be presented to the General Assembly for the approval. Dividend per share will be full TRL 1.12 (full EUR 0.24).

#### Share premium

Excess amount of selling price and nominal value for each share was recorded as share premium in equity.

#### Revaluation surplus

The revaluation surplus comprises the revaluation of intangible assets acquired in a business combination until the investments are derecognised or impaired.

#### Purchase of shares of entities under common control

The purchases of the shares of entities that are under common control are accounted for at book values. The net amount of consideration paid over the book value of the net assets acquired is recognised directly in equity.

#### Cash flow hedge reserve

The hedging reserve comprises the effective portion of the cumulative net change in the fair value of cash flow hedging instruments related to hedged transactions that have not yet occurred, net of tax.

### 26. LOANS AND BORROWINGS (continued)

(\*) TAV Tunisia had started negotiations with the Tunisian Authorities and the Lenders regarding a potential restructuring to restore the economic balance of the concession in line with the Concession Agreement terms. In the meantime, Tunisia has suffered from major terrorist attacks on 18 March 2015 and 26 June 2015, which had a substantial negative impact on tourism and passenger traffic, which in turn negatively affected the revenues of TAV Tunisia. Passenger traffic has dropped by 58% from 3.3 million in 2014 to 1.4 million in 2015 and increased to 1.7 million in 2017. Under these new adverse circumstances, TAV Tunisia continued to be engaged in negotiations with the Tunisian Authorities and its Lenders for the restructuring of its concession and financing arrangements, with the aim to reach an agreement. The negotiations are in an advanced stage and a Standstill Agreement covering period until 2019 September where no concession fees and debt is paid is about to be agreed on and signed by the parties. The aim is to arrange a further restructuring at the end of this period once passenger traffic stabilizes and there is more visibility regarding cash flow projections of the Company.

In the meantime, since TAV Tunisia has been in breach of its financing agreements due to its current difficulties, non-current loan liabilities of TAV Tunisia were reclassified to current loan liabilities on 30 June 2015 and the amount outstanding as of 31 December 2017 is EUR 359,104. Consequently minority deficit amounting to EUR 19,604 (31 December 2016: EUR 16,082) has been classified to other accruals and liabilities which is presented at a fair value of EUR 31,538 (31 December 2016: EUR 31,006). TAV Tunisia received an Acceleration Notice from the Lenders accompanied by a Letter of Intent stating that the Lenders' current intention is to protect their security rights while continuing the three-party negotiations towards a restructuring and they do not intend to make the loans due and payable. Tunisian Authorities also granted an extension of their standstill period until 28 February 2018, to be further extended in line with the calendar for the signing of the Standstill Agreement. Furthermore, TAV Tunisia received Early Termination Letters from the Hedging Banks, which resulted in termination amounts of EUR 63,785 becoming due and payable (31 December 2016: EUR 63,548).

The Company has been advised by its legal counsels that under the Finance Documents the Hedging Banks cannot act alone in demanding these payments and hence a coordinated solution among all Lenders in line with the Standstill Agreement is currently being negotiated.

While the management believes that the signing of the Standstill Agreement in the near future is very likely, in the event that it is not signed and a joint solution cannot be reached in due course, TAV Tunisia is exposed to the material legal and financial consequences including but not limited to using its legal rights including filing for arbitration for the rebalancing of the Concession Agreement and, in failure to be able to do so, the termination of the Concession Agreement.

(\*\*) Loans of TAV İstanbul and TAV Macedonia are refinanced in 2016.

It is the Group's policy to lease certain of its fixtures and equipment under finance leases. The average remaining lease term is nine years as at 31 December 2017. For the year ended 31 December 2017, the average effective borrowing rate is 6.10% (31 December 2016: 9.24%). Interest rates are fixed at the contract date, and thus expose the Group to fair value interest rate risk. All leases are on a fixed repayment basis and no arrangements have been entered into for contingent rental payments.

#### Reconciliation of liabilities arising from financing activities

The table below details changes in the Group's liabilities arising from financing activities, including both cash and non-cash changes. Liabilities arising from financing activities are those for which cash flows were, or future cash flows will be, classified in the Group's consolidated statement of cash flows as cash flows from financing activities:

### 27. RESERVE FOR EMPLOYEE SEVERANCE INDEMNITY

Under the Turkish Labour Law, the Company and its Turkish subsidiaries and joint ventures are required to pay termination benefits to each employee who has completed one year of service and whose employment is terminated without due cause, is called up for military service, dies or who retires after completing 25 years of service (20 years for women) and reaches the retirement age (58 for women and 60 for men). Since the legislation was changed on 8 September 1999, there are certain transitional provisions relating to length of service prior to retirement.

Such payments are calculated on the basis of 30 days' pay maximum full TRL 4,732 as at 31 December 2017 (equivalent to full EUR 1,048) (31 December 2016: full TRL 4,297 (equivalent to full EUR 1,158)) per year of employment at the rate of pay applicable at the date of retirement or termination. Reserve for retirement pay is computed and reflected in the financial statements on a current basis. The reserve has been calculated by estimating the present value of future probable obligation of the Company and its Turkish subsidiaries and joint ventures arising from the retirement of the employees. The calculation was based upon the retirement pay ceiling announced by the government.

The provision has been calculated by estimating the present value of the future probable obligation of the Company and its subsidiaries and joint venture registered in Turkey arising from the retirement of employees. IFRSs require actuarial valuation methods to be developed to estimate the enterprise's obligation under defined benefit plans. Accordingly, the following actuarial assumptions were used in the calculation of the total liability:

The principal assumption is that the maximum liability for each year of service will increase in line with inflation. Thus, the discount rate applied represents the expected real rate after adjusting for the anticipated effects of future inflation. Consequently, in the accompanying consolidated financial statements as at 31 December 2017, the provision has been calculated by estimating the present value of the future probable obligation of the Group arising from the retirement of the employees. The provision at 31 December 2017 has been calculated assuming an annual inflation rate of 6.00% and a discount rate of 11% resulting in a real discount rate of approximately 4.72% (31 December 2016: an annual inflation rate of 5.00% and a discount rate of 10.45% resulting in a real discount rate of approximately 5.19%). It is planned that retirement rights will be paid to employees at the end of concession periods. Accordingly, present value of the future probable obligation has been calculated based on the concession periods.

The Group's exposure to currency and liquidity risk is related to other payables is disclosed in Note 34.

(\*) TAV Tunisia has a concession period of 40 years and annual concession fee is paid based on the annual revenue of Monastir and Enfidha Airports. The concession fee is computed at an increasing rate between 11% and 26% of the annual revenues.

The concession fee of TAV Macedonia is 15% of the gross annual turnover until the number of passengers using the two airports reaches to 1 million, and when the number of passengers exceeds 1 million, this percentage shall change between 4% and 2% depending on the number of passengers.

A concession agreement was executed between TAV Milas Bodrum and DHMİ on 11 July 2015 for the leasing of the operating rights of the Milas Bodrum Airport's existing international terminal, CIP, general aviation terminal, domestic terminal and its auxiliaries. The agreement covers the operation right of the international terminal starting from 22 October 2015 to 31 December 2035 (approximately 20 years and 2 months) and operation right of the domestic terminal starting from July 2014 to December 2035. The concession payable of TAV Milas Bodrum domestic terminal is presented in financials EUR 336,342 as of 31 December 2017 (31 December 2016: EUR 346,840). According to Council of Ministers decision, concession payment of TAV Milas Bodrum related to 2016 amounting to EUR 28,680 is deferred to June 2018.

The concession payable of the international and domestic terminal of İzmir Adnan Menderes Airport is presented in financials EUR 301,539 as of 31 December 2017 (The concession payable of the domestic terminal of İzmir Adnan Menderes Airport is presented in financials EUR 313,975 as of 31 December 2016).

### 32. DERIVATIVE FINANCIAL INSTRUMENTS

At 31 December 2017 and 2016, derivative financial instruments comprised the following:

	31 December 2017		
	Assets	Liabilities	Net Amount
Interest rate swap	26	(36,192)	(36,166)
Forward	-	(2,303)	(2,303)

	Assets	Liabilities	Net Amount
Interest rate swap	-	(49,188)	(49,188)
	-	<b>(49,188)</b>	<b>(49,188)</b>

#### **Interest rate swap:**

TAV Esenboğa uses interest rate swap to manage its exposure to interest rate fluctuations on its bank borrowings. As at 31 December 2017, 100% of project finance loan is hedged through Interest Rate Swap (“IRS”) contract during the life of the loan with an amortising schedule depending on repayment of the loan (31 December 2016: 100%).

TAV Ege uses interest rate swap to manage its exposure to interest rate fluctuations on its bank borrowings. As at 31 December 2017, 100% of project finance loan is hedged through IRS contract during the life of the loan with an amortising schedule depending on repayment of the loan (31 December 2016: 100%).

TAV Milas Bodrum uses interest rate swap to manage its exposure to interest rate fluctuations on its bank borrowings. As at 31 December 2017, 90% of total loan is hedged through IRS contract (31 December 2016: 90%).

TAV Tunisia received Early Termination Letters from the Hedging Banks, which resulted in termination amounts of EUR 63,785 becoming due and payable.

TAV Macedonia uses interest rate swap to manage its exposure to interest rate fluctuations on its bank borrowings. As at 31 December 2017, 100% of total loan is hedged through IRS contract. TAV Macedonia terminated the hedge relationship in year 2016 due to refinancing.

TAV İşletme uses interest rate swap to manage its exposure to interest rate fluctuations on its bank borrowings. As at 31 December 2017, 100% of total loan is hedged through IRS contract.

TAV Istanbul terminated the hedge relationship in year 2016 due to refinancing.

The fair value of derivatives at 31 December 2017 is estimated at loss of EUR 38,495. This amount is based on market values of equivalent instruments at the reporting date. Since the Group applied hedge accounting as at 31 December 2017, changes in the fair value of these interest rate swaps and cross currency swaps are reflected to other comprehensive income resulting to an income of EUR 8,990 net of tax.

#### **Fair value disclosures:**

The Group has determined the estimated fair values of the financial instruments by using current market information and appropriate valuation methods.

### 33. OPERATING LEASES

The Group entered into various operating lease agreements (excluding rent agreement for TAV İstanbul and concession agreement for TAV Macedonia, TAV Tunisia, TAV Ege and TAV Milas Bodrum). For the year ended 31 December 2017, total rent expenses for operating leases amounted to EUR 4,964 recognised in profit or loss (31 December 2016: EUR 5,389).

### 34. FINANCIAL INSTRUMENTS

Exposure to credit, interest rate and currency risks arises in the normal course of the Group's business. TAV Esenboğa, TAV Milas Bodrum, TAV Macedonia, TAV İşletme and TAV Ege use interest rate swaps to hedge the fluctuations in Euribor and Libor rates (i.e. 100%, 90%, 100%, 100% and 100% of floating loans of TAV Esenboğa, TAV Milas Bodrum, TAV Macedonia, TAV İşletme and TAV Ege respectively are fixed).

Past due 1 - 5 year	13,459	17,661
	<b>221,841</b>	<b>235,249</b>

The movements in the allowance for impairment in respect of trade receivables during the years ended 31 December were as follows:

	<b>1 January- 31 December 2017</b>	<b>1 January- 31 December 2016</b>
<b>Balance at 1 January</b>	<b>(14,877)</b>	<b>(14,804)</b>

#### Sensitivity analysis:

The Group's principal currency risk relates to changes in the value of the Euro relative to TRL and USD. The Group manages its exposure to foreign currency risk by entering into derivative contracts and, where possible, seeks to incur expenses with respect to each contract in the currency in which the contract is denominated and attempt to maintain its cash and cash equivalents in currencies consistent with its obligations.

The basis for the sensitivity analysis to measure foreign exchange risk is an aggregate corporate-level currency exposure. The aggregate foreign exchange exposure is composed of all assets and liabilities denominated in foreign currencies, both short-term and long-term purchase contracts.

A 10 percent strengthening / (weakening) of EUR against the following currencies at 31 December 2017 and 2016 would have increased / (decreased) equity and profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant.

	Equity		Profit or loss

#### Interest rate risk

The Group has used material amounts of bank borrowings from foreign financial institutions and banks. Although most of these borrowings have floating interest rates, the Group management and banks fixed interest rates by using derivative financial instruments. TAV Esenboğa, TAV Milas Bodrum, TAV Macedonia, TAV İşletme and TAV Ege use interest rate swaps to hedge the fluctuations in Euribor and Libor rates (i.e. Interest payments of 100%, 90%, 100%, 100% and 100% of floating loans of TAV Esenboğa, TAV Milas Bodrum, TAV Macedonia, TAV İşletme and TAV Ege respectively are fixed). Hedge accounting is applied for the mentioned derivative financial instruments

##### Profile:

At the reporting date, the interest rate profile of the Group's interest-bearing financial instruments was:

	Carrying amount	
	31 December 2017	31 December 2016
<b>Fixed rate instruments</b>		
Financial assets	474,994	336,165
Financial liabilities	(304,936)	(525,572)
	<b>170,058</b>	<b>(189,407)</b>
		Carrying amount
		31 December 2017
		31 December 2016
<b>Variable rate instruments</b>		
Financial liabilities	(852,693)	(764,594)
	<b>(852,693)</b>	<b>(764,594)</b>

##### Fair value sensitivity analysis for fixed rate instruments:

The Group does not account for any fixed rate financial assets and liabilities at fair value through profit or loss, and the Group does not designate derivatives (interest rate swaps) as hedging instruments under a fair value hedge accounting model. Therefore, a change in interest rates at the reporting date would not affect profit or loss.

##### Cash flow sensitivity analysis for variable rate instruments:

Based on the Group's current borrowing profile, a 50 basis points increase in Euribor or Libor would have resulted in additional interest expense of approximately EUR 899 on the Group's variable rate debt when ignoring effect of derivative financial instruments. EUR 899 of the exposure is hedged through interest rate swap contracts. Therefore, the net exposure on statement of comprehensive income would be EUR 0. A 50 basis points increase in Euribor or Libor would have resulted an increase in cash flow hedge reserve in equity approximately by EUR 15,090 and a 50 basis points decrease in Euribor or Libor would have resulted a decrease in cash flow hedge reserve in equity approximately by EUR 15,813.

#### Financial risk management

The Group has exposure to the following risks from its use of financial instruments:

- credit risk
- liquidity risk
- market risk
- operational risk

This note presents information about the Group's exposure to each of the above risks, the Group's objectives, policies and processes for measuring and managing risk, and the Group's management of capital. Further quantitative disclosures are included throughout these consolidated financial statements.

#### Financial risk management (continued)

##### *Risk management framework*

The Board of Directors has overall responsibility for the establishment and oversight of the Group's risk management framework.

The Group has established a Risk Management Department who is responsible for the Enterprise Risk Management function within the Group, and aims to develop a disciplined and constructive risk management and control environment in which all employees know and understand their roles and responsibilities.

All directors act to ensure an effective risk management and internal control process, providing assurance in relation to continuous identification and evaluation of the risks that exist in all main process areas.

The Group Audit Committee is assisted in its oversight role by Internal Audit. The mission of the Internal Audit Directorate of the Group is to assist TAV Holding Board of Directors and Management (including subsidiaries) in their oversight, management and operating responsibilities by identifying; ineffectiveness of internal control, risk management and governance processes inefficiencies that cause waste of its resources and making professional recommendations through independent audits (reports) and / or advisory services.

Internal audit plans are based on risk assessments as well as the issues highlighted by the Audit Committee and the management. Risk assessment is conducted and coordinated by Risk Management Department on continuous basis so as to identify and evaluate not only existing risks but also emerging risks. Formally, risk assessment is made annually but more often if required.

##### *Credit risk*

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables from customers and bank balances.

The Group's principal financial assets are cash and cash equivalents and trade and other receivables.

Credit risk on liquid funds is limited because the counterparties are banks with high credit ratings.

The Group has procedures in place to ensure that services are provided to customers with an appropriate credit history. The carrying amount of trade and other receivables, net of provision for impairment of receivables, and the total of cash and cash equivalents, represents the maximum amount exposed to credit risk. The main customer is Turkish Airlines (THY). Based on past history with this customer, the Group management believes there is no significant credit risk for this customer. Although collection of receivables could be influenced by economic factors, management believes that there is no significant risk of loss to the Group beyond the provisions already recorded due to reputation and type of customers for the airlines (well-known reputable, international and flag carrier companies).

In addition, the Group receives letters of guarantee, and notes from certain customers whose credibility is low.

##### *Liquidity risk*

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The Group uses activity-based costing to cost its products and services, which assists it in monitoring cash flow requirements and optimizing its cash return on investments. Typically the Group ensures that it has sufficient cash on demand to meet expected operational and financial expenses, including the servicing of financial obligations; this excludes the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters.

### 34. FINANCIAL INSTRUMENTS (continued)

#### Financial risk management (continued)

##### *Market risk*

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

The Group buys and sells derivatives, and also incurs financial liabilities, in order to manage market risks. All such transactions are carried out within the guidelines set by lenders and executives of the Group as mentioned in Note 32.

The Group applies hedge accounting in order to manage volatility in profit or loss.

##### *i) Currency risk:*

Currency risk is the risk that the value of financial instruments will fluctuate due to changes in foreign exchange rates. The Group has exposure to the effects of fluctuations in the prevailing foreign currency exchange rates on its financial position and cash flows. As at 31 December 2017, the Group had balances that are denominated in a currency other than the respective functional currencies of Group entities, primarily EUR, but also USD, GEL, TND, MKD, SAR, CLP, TRL, and HRK which are disclosed within the relevant notes to these consolidated financial statements. The currencies in which these transactions primarily denominated are USD and TRL. The Group manages this currency risk by maintaining foreign currency cash balances and using some financial instruments.

##### *ii) Interest rate risk:*

The Group adopts a policy of ensuring that between 50 and 100 percent of its exposure to changes in interest rates on borrowings is on a fixed rate basis. This is achieved by entering into interest rate swaps.

##### *Operational risk*

Operational risk is the risk of direct or indirect loss arising from a wide variety of causes associated with the Group's processes, personnel, technology and infrastructure, and from external factors other than credit, market and liquidity risks such as those arising from legal and regulatory requirements and generally accepted standards of corporate behaviour. Operational risks arise from all of the Group's operations.

The Group's objective is to manage operational risk so as to balance the avoidance of financial losses and damage to the Group's reputation with overall cost effectiveness and to avoid control procedures that restrict initiative and creativity.

The primary responsibility for the development and implementation of controls to address operational risk is assigned to senior management within each business unit. This responsibility is supported by the development of overall Group standards for the management of operational risk in the following areas:

- requirements for appropriate segregation of duties, including the independent authorisation of transactions
- requirements for the reconciliation and monitoring of transactions
- compliance with regulatory and other legal requirements
- documentation of controls and procedures
- requirements for the periodic assessment of operational risks faced, and the adequacy of controls and procedures to address the risks identified
- requirements for the reporting of operational losses and proposed remedial action
- development of contingency plans
- training and professional development
- ethical and business standards
- risk mitigation, including insurance where this is effective.

Compliance with Group standards is supported by a programme of periodic reviews undertaken by Internal Audit. The results of Internal Audit reviews are discussed with the management of the business unit to which they relate, with summaries submitted to the Audit Committee and senior management of the Group.

##### Capital management

The Board's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence; to sustain future development of the business and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

#### Fair values

#### Contractual obligations (continued)

##### TAV İstanbul (continued)

Pursuant to the provisions of the rent agreement, the contractual obligations of TAV İstanbul include the rental of the above mentioned contractual facilities for a period of fifteen and a half years beginning on 3 July 2005; the operation of the facilities in compliance with international norms and standards within the rental (operation) period; the performance of periodic repair and maintenance activities on the facilities and the transfer of the facilities in question including the supporting systems, equipment, furniture and fixtures in a proper and usable condition to DHMİ upon the expiry of the rental period.

In the case where TAV İstanbul as the lessee performs a delayed and/or incomplete rent payment to DHMİ, TAV İstanbul is charged a penalty of 10% of the rent amount to be paid. TAV İstanbul is then obliged to perform the payment latest within five days. Otherwise, DHMİ shall be entitled to terminate the rent agreement. TAV İstanbul is not entitled to claim the rent payments performed to DHMİ prior to the termination of the contract.

##### TAV Esenboğa

TAV Esenboğa is bound by the terms of the BOT Agreements made with DHMİ. If these companies do not follow the rules and regulations set forth in the concession agreement, this might lead to the forced cessation of these companies' operations according to the BOT Agreements. According to the BOT agreements:

- The share capital of the companies cannot be less than 20% of fixed investment amount.
- The companies have a commitment to make additional investment up to 20% of the initial BOT investment upon request of DHMİ.

After granting of temporary acceptance by DHMİ in year 2007, final acceptance for BOT investments of TAV Esenboğa was granted by DHMİ on 5 June 2008.

At the end of the contract period, the companies will be responsible for one year for the maintenance and repair of the devices, system and equipment supplied for the contractual facilities. In case the necessary maintenance and repairs are not made, DHMİ will have this maintenance and repair made and the cost will be charged to TAV Esenboğa.

All equipment used by TAV Esenboğa must be in a good condition and under warranty and need to meet the international standards and Turkish Standards as well.

If the need shall arise to replace fixed assets subject to depreciation, which become unusable within the rent period and the depreciation rates of which are delineated in the Tax Application Law, the operator is obliged to perform the replacement.

All fixed assets covered by the implementation contract will be transferred to DHMİ free of charge. Transferred items must be in working conditions and should not be damaged. TAV Esenboğa has the responsibility of repair and maintenance of all fixed assets under the investment period.

##### HAVAŞ

In accordance with the general ground handling agreement (an integral part of the ground handling operation A Group license) signed with DHMİ and HAVAŞ undertake the liability of all losses incurred by their personnel to DHMİ or to third parties. In this framework, HAVAŞ covers those losses by an insurance policy amounting to USD 50,000. HAVAŞ also takes the responsibility of the training facilities given to the personnel and the quality of the service provided by its personnel together with the repair and maintenance of the ground handling vehicles and equipment. HAVAŞ is required to provide DHMİ with letters of guarantee amounting to USD 1,000. Fines received from losses incurred by the ground handling personnel or fines arising from the violation of the related agreement will be charged to HAVAŞ. Fines which are overdue in accordance with the appointed agreement / period declared by DHMİ will be settled by the liquidation of the letter of guarantee. If DHMİ liquidates the collateral, HAVAŞ is obliged to complete the collateral at its original amount which is USD 1,000 within 15 days.

In accordance with the rental agreements signed with DHMİ regarding several parking areas, land, buildings, offices at the İstanbul Atatürk, İzmir, Dalaman, Milas Bodrum, Alanya, Adana, Trabzon, Ankara, Kayseri, Nevşehir, Gaziantep, Şanlıurfa, Batman, Adıyaman, Elazığ, Muş, Sivas, Samsun, Malatya, Hatay, Konya, Çorlu, Sinop, Amasya and Ağrı airports; when the rent period ends, DHMİ will have the right to retain the immovable in the area free of charge.

##### TAV Tbilisi

TAV Tbilisi is bound by the terms of the BOT Agreement. In case TAV Tbilisi fails to comply with the rules and regulations set forth in the agreement, it may be forced to cease its operations.

With regards to the BOT Agreement, TAV Tbilisi is required to;

- comply with all applicable safety standards and ensure that the airport and all other ancillary equipment are operated in a manner safe to passengers, workers and general public, as well as to comply with the technical and operational requirements of Tbilisi International Airport and environmental standards of Georgia;
- maintain and operate the new terminal and infrastructure at Tbilisi International Airport in accordance with the applicable requirements of the BOT Agreement and International Air Transportation Association, International Civil Aviation Organization or European Civil Aviation Conference;
- ensure that its subcontractors and TAV Tbilisi itself obtain and maintain relevant insurance policies from financially strong and internationally reputable insurance companies;
- remedy accidents that might occur upon mechanical damage inflicted by TAV Tbilisi to existing communication networks or inappropriate use or operation thereof.

The Final Acceptance Protocol was concluded in May 2011.

#### *Tax legislation and contingencies*

Georgian commercial legislation and tax legislation in particular may give rise to varying interpretations and amendments. In addition, as management's interpretation of tax legislation may differ from that of the tax authorities, transactions may be challenged by the tax authorities, and as a result TAV Tbilisi may be assessed additional taxes, penalties and interest. Tax periods remain open to review by the tax authorities for five years. Management believes that their interpretation of the relevant legislation is appropriate and TAV Tbilisi's profit, currency and customs positions will be sustained.

Pursuant to both Concession Agreements, TAV Tunisia is required to:

- market and promote the activities operated in the Airports and perform the public service related with these activities;
- provide with and maintain the bank guarantees in accordance with the Agreements;
- pay the Concession Royalties to the Conceding Authorities (Tunisian State and OACA);
- comply particularly with provisions of Appendix 2 to the Terms and Specifications annexed to the Agreements related to the ownership of the shares by TAV Tunisia's shareholders;
- require the approval of the Conceding Authority prior to the transfer of its rights under the Concession Agreements to any third party or to the conclusion of any sub-contract during the operation phase of the Airports;
- comply with its obligations under the Agreements and with all applicable Tunisian Laws and International rules related particularly but not limited to safety, security, technical, operational and environmental requirements;
- comply with its obligations related to insurance as provided for by the Agreements.

TAV Tunisia may also be obliged to cease the operation of the said airports if (i) it is declared insolvent or is subject to judicial liquidation proceedings or (ii) it is forced to cease the operation of one of the Airports.

In accordance with the general ground handling agreement, the Company undertakes the liabilities of all the losses incurred by their personnel to third parties. In this framework, TAV Tunisia covers those losses by an operator third party insurance policy amounting to USD 500,000 related with all operations.

The Conceding Authority and TAV Tunisia shall, seven years prior to the expiry of the Concession Agreement, negotiate and agree on a repair, maintenance and renewal program, with the assistance of specialists if applicable, which program includes the detailed pricing of the works for the final five years of the concession which are necessary in order to ensure that the movable and immovable concession property is transferred in good condition to the Conceding Authority, as well as the schedule of the tasks to be completed prior to the transfer. In this context, TAV Tunisia annually performs repair and maintenance procedures for the operation of the concession property according to the requirements set in the Concession Agreement.

#### TAV Gazipaşa

TAV Gazipaşa is bound by the terms of the Concession Agreement made with DHMİ for Alanya Gazipaşa Airport.

If TAV Gazipaşa violates the agreement and does not remedy the violation within the period granted by DHMİ, DHMİ may terminate the Agreement.

The share transfers of the shareholders of TAV Gazipaşa are subject to the approval of DHMİ.

The Agreement is made for a period of twenty-five years effective from the date TAV Gazipaşa obtains the operation authorisation from the Ministry of Transportation. The contractual obligations of TAV Gazipaşa include the operation of the facilities in compliance with the international norms and standards subject to the supervision of the Ministry of Transportation Civil Aviation General Directorate and DHMİ; obtaining maintenance and periodic maintenance and repairs of all systems and equipment requisite for the operation and the transfer of the facilities together with the systems, equipment, furniture and fixtures in a proper and usable condition to DHMİ, without any debt or liabilities, upon the expiry of the Agreement (if the economic lives of the systems, equipment, furniture and fixtures have come to an end, they should be renewed before the transfer to DHMİ). Upon the expiry of the Agreement, TAV Gazipaşa will be responsible for one year for the maintenance and repair of the systems and equipment in the facilities. In case the necessary maintenance and repairs are not made, DHMİ will have this maintenance and repairs made and the cost will be charged to TAV Gazipaşa.

### 35. COMMITMENTS, CONTINGENCIES AND CONTRACTUAL OBLIGATIONS (continued)

#### Contractual obligations (continued)

##### TAV Gazipaşa (continued)

If expropriation of land is required for construction of additional facilities or systems during the term of the Agreement, TAV Gazipaşa will be responsible for the compensation for expropriation and will not demand any compensation and/or additional rent period from DHMİ and the owner of the subject land will be DHMİ.

In the event that TAV Gazipaşa is delayed in paying the rent and/or the rent is not fully paid to DHMİ, TAV Gazipaşa will be charged a monthly penalty in the amount of 10% of the outstanding amount.

Facility usage amount represents the USD 50 fixed payment that is paid as a usage amount of the airport facility, subsequent to rent period starting, within the last month of each rent payment year.

##### TAV Macedonia

TAV Macedonia is bound by the terms of the Concession Agreement made with Macedonian Ministry of Transport and Communication (“MOTC”).

If TAV Macedonia violates the agreement and does not remedy the violation within the period granted by MOTC, MOTC may terminate the Agreement.

All equipment used by TAV Macedonia must need to meet the Concession Agreement’s standards.

All fixed assets covered by the implementation contract will be transferred to MOTC free of charge. Transferred items must be in working conditions and should not be damaged. TAV Macedonia has the responsibility of repair and maintenance of all fixed assets under the investment period.

##### TAV Ege

During the contract period, TAV Ege should keep all the equipment it uses in a good condition at all times. If the equipment’s useful life is expired according to the relevant tax regulations, TAV Ege should replace them in one year.

At the end of the contract period, all fixed assets covered by the concession agreement will be transferred to DHMİ free of charge. Transferred items must be in working condition and should not be damaged. TAV Ege is responsible from the repair and maintenance of all fixed assets during the contract period.

##### TAV Milas Bodrum

During the contract period, TAV Milas Bodrum should keep all the equipment it uses in a good condition at all times. If the equipment’s useful life is expired or the equipment is damaged, the Company should replace it with its equivalent or with a better replacement.

At the end of the contract period, all fixed assets covered by the concession agreement will be transferred to DHMİ free of charge. Transferred items must be in working condition and should not be damaged. TAV Milas Bodrum is responsible from the repair and maintenance of all fixed assets during the contract period.

Management believes that as at 31 December 2017, the Group has complied with the terms of the contractual obligations mentioned above.
